## START TODAY IN BALLOON RACES

Three Countries Represented  
in Contest for James Gordon Bennett Cup  
**AMERICA SCORES A POINT**  
The "Buckeye," Lieut. Lahm Pilot, Gets Best Place in Positions

KANSAS CITY, Oct. 4.—America scored an advantage over her two foreign competitors—France and Germany—in the international balloon race for the James Gordon Bennett cup tonight, when Lieut. Frank P. Lahm, pilot of the balloon "Buckeye," flying the colors of the Aero Club of America, New York, secured position No. 6 in the official starting positions in tomorrow's race.  
The "Buckeye," therefore, will be the last balloon to leave the ground. It will have the advantage of rising in more favorable winds than competitors and the sun will not be so warm. These two points will enable the "Buckeye" to save much gas at the start, and, according to other entrants, makes America's chance of winning the race bright.  
The drawing for places of start resulted:  
No. 1, first to leave the ground, London, France; No. 2, America II; No. 3, Berlin I; No. 4, Million Population; No. 5, Berlin II; No. 6, "Buckeye."

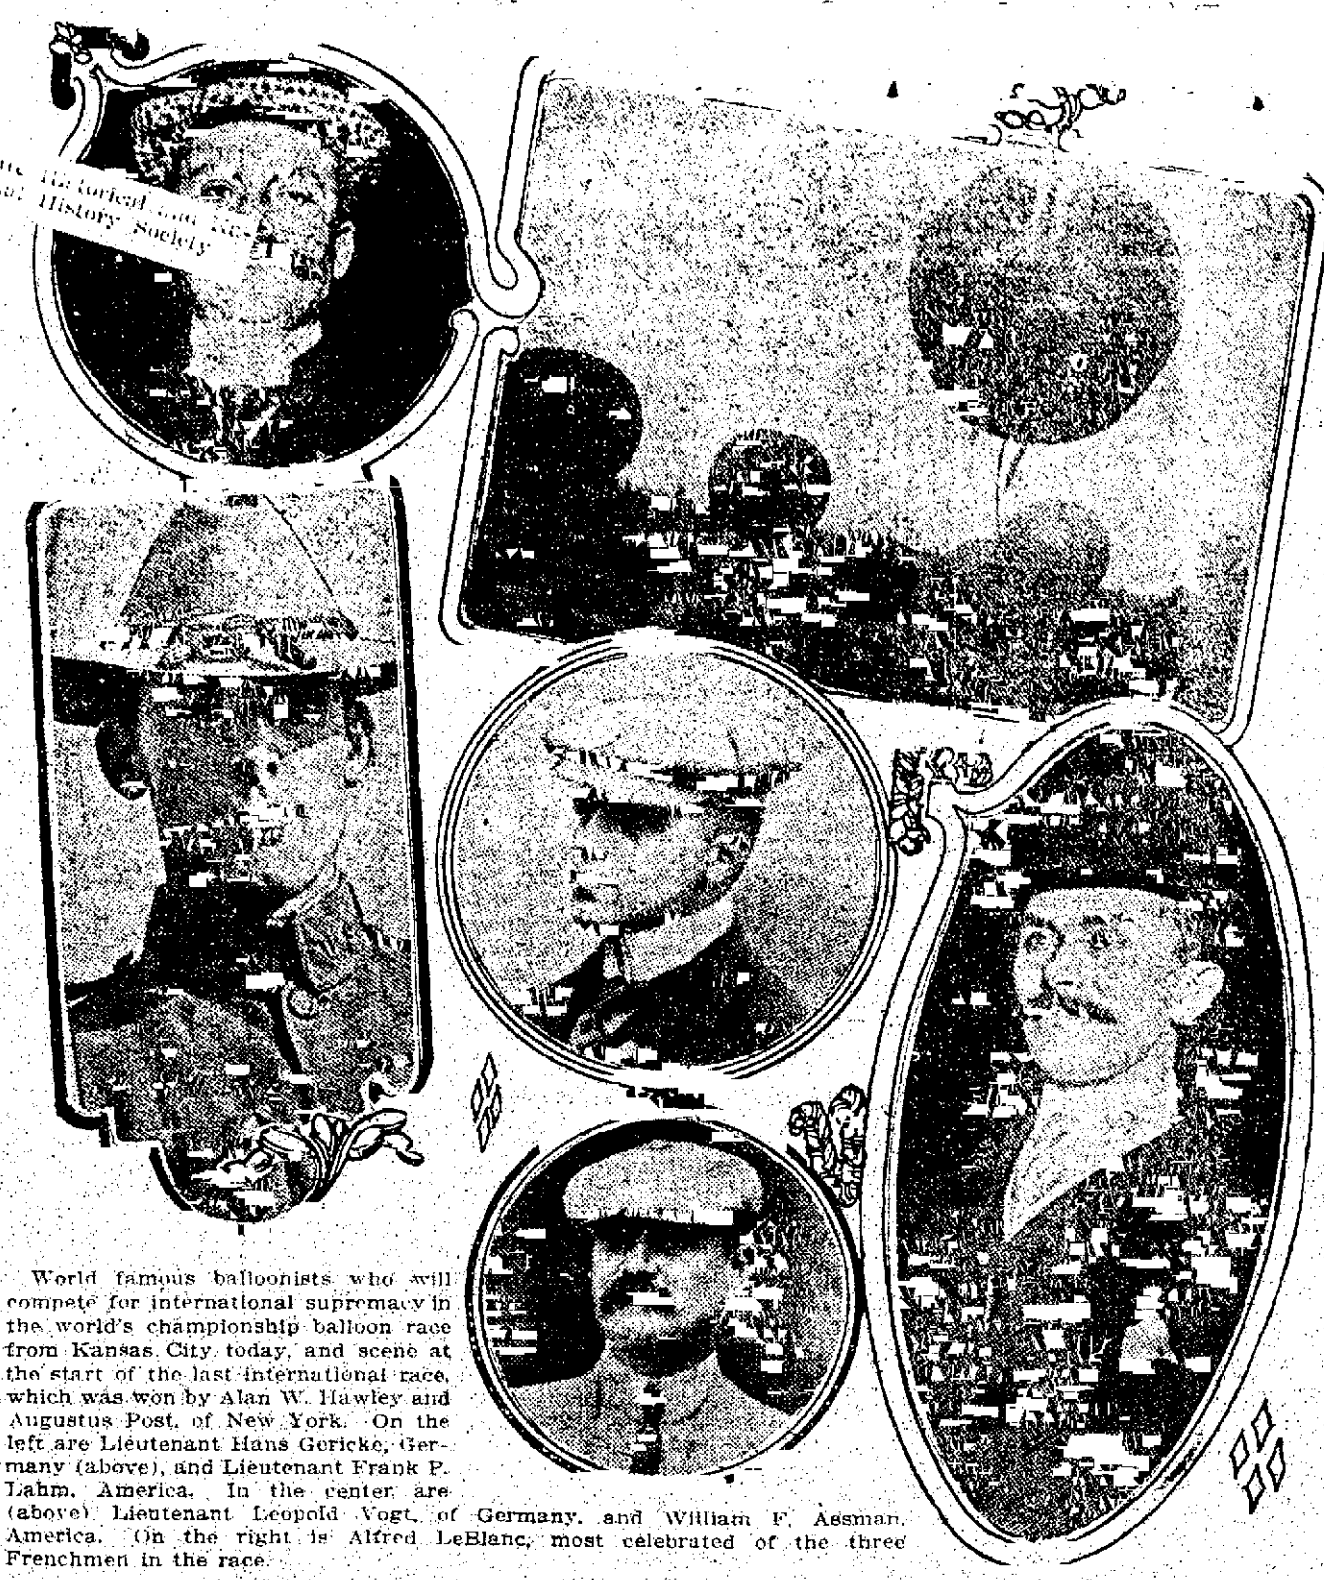

Everything in Readiness.  
All is in readiness for the start of the big international balloon race tomorrow. The nine great aerostats are all out at the ascension field ready for inflation. The fact that all are unburied balloons and natural gas will be used, and the prospects that ideal weather conditions will prevail, make it more than probable that a new distance record will be created. The "winner" is expected to land in New England or eastern Canada.  
Enthusiastic balloon "fans" flocked to the grounds by hundreds today to watch the preparations of the famed aerostats. Tomorrow the hundreds will be thousands, judging from the high ebullience of interest in this city, and it is expected that the militia and United States regulars who have been detailed to police the grounds, will have their hands full to keep the crowds in check. The local regiment of National guard and a regiment of St. Joseph are assisted by two companies of regulars from Fort Leavenworth and St. Louis. Grandstand arrangements have been made for the accommodation of a 30,000 crowd.

America Has Won Twice.  
An American victory will mean that the James Gordon Bennett cup passes out of distance as a trophy for competition. America has won the last two races, and a third consecutive triumph will give it permanent possession.  
The greatest competition is expected to come from the German team. In Lieut. Hans Gerike of Berlin is a veteran, and one of the most skillful German aeronauts. With his balloon, the "Dusseldorf," he finished second in the international race of 1910, and the "Dusseldorf" is also an experienced pilot.  
Probably the most famous of the French team is Alfred LeBlanc, who has competed in many of the more important contests in Europe. His teammates are Emile Dubonnet and Felix Jourdan.  
The Gordon Bennett cup race has been the classic of ballooning ever

(Continued on Page Two.)

## WO WOMEN ARE ARRESTED FOR ROBBERY IN AUSTIN

AUSTIN, Tex., Oct. 4.—The first arrests for robbery following the disastrous flood of last Saturday were made today, when two women were caught by a state trooper prying open a trunk. The women are Mrs. Peter Shava and her daughter, Mrs. Joseph Shava. Their money was searched and found and valued at \$1,000 or more were recovered, many pieces being identified by the owners. Joseph Shava, husband of the younger woman, is accused of participating in the theft, but he has not been found.  
With the bodies recovered there are at 30 persons unaccounted for. Six men were held today.  
A sentiment from a sister community that has suffered even worse than Austin was expressed in a check for \$1,000 received from the Cambridge and Steel company of Johnston, N. H., making a total of \$1,500 to the flood sufferers. Citizens of Cambridge have subscribed \$1,000.

## CRITICISM HINDERS LAW ENFORCEMENT

Human Nature Frail and Some Men Grow Timid When Attacked, Says Taft

RAWLINS, Wyo., Oct. 4.—President Taft spent the day in Wyoming and left Rawlins after a 10-minute stop tonight, for Salt Lake City, Utah, where he expects to spend tomorrow. During the day the president stopped at Cheyenne and Laramie. At Cheyenne, Charlie Irwin of the reception committee had arranged a miniature reproduction of the "stunts" made famous at the annual Frontier day celebration.  
Governor Carey, who accompanied the president across the state, told Mr. Taft that he would be backed by the Wyoming delegation at the next Republican convention, and that he would receive the electoral vote of the state in November, 1912. This announcement was of particular interest because Governor Carey was elected as an independent, and against the candidacy of the so-called "regular machine."  
Another item of political interest today was the receipt by the president of a telegram announcing that Governor Hiram Johnson, the insurgent executive of California, would meet the Taft train at the California line and accompany it through the state. Governor Johnson will be accompanied by a party of state officials.  
Promises Quicker Action.  
In his speech at Laramie, President Taft called out enthusiastic applause by declaring that he was going to see to it that the interior department at Washington gives quicker action hereafter on all matters affecting the public domain.  
"We have had an unfortunate condition in the department," said the president. "The controversies between the extremists on both sides of the conservation question brought about a bitter attack upon the interior department and really interfered with the administration of the laws."  
"You cannot keep a lot of men under fire under criticism, under the muck-raking system, which unfortunately prevails, without paralyzing efforts toward the administration of the law. They become timid."  
"It is a good deal easier, gentlemen, to do nothing and to assume no responsibility than it is to go ahead and do things and then take the shafts of criticism and the charges of bad motives. It takes courage to do that, and human nature is frail some times and hesitates. I am glad to say that people the country over are now taking a much more sensible and philosophical view of the future."

Mr. Taft said that one result of his trip through the west, and the recent tours of Secretary of the Interior Fish and Secretary of Agriculture Wilson would be to stimulate the department at Washington. "To rid themselves of that red tape and delay which is the resort of those who are timid in administering the law."  
Senator Warren promised the president today to support the peace treaty in the senate. He declared that the president's speech on the subject unquestionably had met the approval of the people.  
Mr. Taft stated the bucking brand.

(Continued on Page Two.)

## Progressives Denounce New Mexico Republican Party and Its Ticket

SANTA FE, N. M., Oct. 4.—The Democratic state convention tonight nominated W. C. McDonald of Carlsbad for governor.  
When the report of the resolution committee was submitted tonight, it was discovered that what was considered one of the most important platform declarations had been omitted. This was the declaration in favor of the "Blue Ballot," or a more easily amended constitution. With this provision inserted, the Democratic house of representatives for making statehood possible; thanks to the progressive Republicans for their aid; declares for a tariff for revenue only; favors direct primaries to nominate all public officials, including United States senators; advocates strict regulation of corporations; a nonpartisan judiciary; separate elections for the judiciary, and the initiative and referendum.  
The progressive Republican state convention tonight adopted a platform embodying plans for progressive legislation and "honest government." It declares for a protective tariff, but denounces "schedule K," denounces the Republican party of New Mexico and the ticket nominated at its recent convention.  
Both conventions adjourned late tonight until tomorrow.  
The progressive Republicans decided to await the completion of the Democratic ticket tomorrow, before taking any action looking to the nomination of a state ticket or the endorsement of the Democratic nominees.

## MORE POWER FOR PURE FOOD AND DRUG BOARD

WASHINGTON, Oct. 4.—Headed and controlled by Dr. Harvey W. Wiley, the chemistry bureau chief, the pure food and drug board of the department of agriculture will hereafter have an augmented authority. Clear view of Dr. Wiley's enlarged powers developed today.  
Dr. R. E. Doolittle of New York, a veteran chemist named to succeed Solicitor McCabe on the board, was personally selected by Dr. Wiley. The two will act as a working majority, the only other member being Dr. Dunlap, who will be on a vacation until after the president's return. Dr. Doolittle has been head of the New York branch of the chemistry bureau.  
The official order of Secretary Wilson, issued today, transferred to the food and drug board many of the powers that have been exercised by Solicitor McCabe since July 1, 1910. It gives the board authority to determine what cases shall be pushed to prosecution, but Secretary Wilson will exercise the right of approval or disapproval.

## Fire Near Boulder Will Delay Work on Dam Year

BOULDER, Colo., Oct. 4.—Fire destroyed the construction plant of the Lake Albion dam, 20 miles north of here, today. This, it is said, will delay work on the property for a year. The new dam is being built by the city of Boulder for the water supply and to furnish power for that city.

## ITALIANS DO GREAT DAMAGE IN TRIPOLI

Three Forts and Number of Dwellings Destroyed Turks Put Up Vigorous Defense

DJERBA, Tunis, Oct. 4.—Tripoli has been bombarded twice by the Italian fleet. The first shot was fired shortly after 3 o'clock yesterday afternoon. Shelling was resumed early today, after a quiet night.  
There was steady but slow fire from the warships until dusk last evening, and shots also came from the forts in the town. The French steamer Tefana took a delegation from Djerba to the scene of hostilities. Among the party was the French consul general, M. Leon, who made several ineffectual attempts to land.  
The Tefana was stopped about 10 miles from Tripoli by a boat from the cruiser Varese, which ordered her to return, but she remained more than an hour, creeping in closer to the blockaded town.  
The white buildings of Tripoli could be plainly seen, and the whole field of operations was unfolded before the watchers. Officers of the Varese explained that the bombardment had been delayed because Admiral Aubrey, commander of the Italian fleet, had received a request from the Tripoli garrison for another day of grace and gave the garrison an extra few hours.  
The battleship Benedetto Brin and armored cruisers Giuseppe Garibaldi and Francesco Ferruccio drew up in line opposite the harbor. There were no small craft in the battle line and the Varese stood off to keep back intruders.

City Appeared Deserted.

There was no sign of life in the city, which appeared deserted, but the Turkish flag flew from the castle and forts. The first shots were directed toward Cherehah, fort, and later Kerkerah fort was shelled.  
As the first shells burst over Tripoli, the garrison seemed to awaken. It returned the fire with vigor and energy. A heavy cannonade was kept up on both sides for a few minutes and then firing became desultory. So far as could be seen, no warship was hit.  
Vice Admiral Faravelli, at 6 o'clock, ordered his ships to cease firing to permit the town to surrender, but no sign was given, and, after a few minutes, the firing began again.  
This time great havoc was wrought. Fortifications were razed, the forts suffered severely, and the lighthouse to the northwest was destroyed by shells from the Garibaldi. There was no means of knowing what the loss of life was in Tripoli, but ample opportunity was given the defenders to escape.  
When the Tefana left the scene no landing had been attempted by the Italians, and it was feared that in the night the town would be pillaged by nomad Arabs, who had been hovering in the vicinity for days.

Several Buildings in Ruins.

Early this morning the first division of the Italian fleet under Admiral Faravelli resumed the bombardment. The Turkish garrison occupied a position behind the forts and responded with a few shells which fell short.  
The Italian commander endeavored to avoid damaging private dwellings.

(Continued on Page Two.)

## LEARN OF PLAN FOR ANOTHER UPRISING

Agents of Madero Claim New Revolution in Mexico Is to Start October 15

DIAZ AND REYES MENTIONED  
Reported to Have Combined With Magon in Establishing Junta in Texas

MEXICO CITY, Oct. 4.—Plans for a new revolutionary movement with ramifications in Oaxaca, Morelos, Puebla, and in the national capital, directed against the supremacy of Madero, are said to have been discovered by secret agents of the president-elect, Madero, October 15 is said to have been fixed for beginning hostilities.  
There have been discovered here according to one who has the confidence of Madero, the existence of secret caches of arms, which were removed through connivance of a police official before they could be seized. A shipment of arms is said to be en route to Salina Cruz intended for use by one of the parties to the plot. The organization, it is alleged, is to be directed from San Antonio, Tex.  
Reports from San Antonio, alleging a junta has been established in that city in the interest of Reyes, were published in El Paso today. They alleged a combination of Diaz, Reyes and Magon had been formed.  
Rodolfo Reyes, son of General Reyes, and Jose Peon del Valle, the latter's erstwhile campaign manager, declared Reyes' trip to San Antonio had nothing to do with any political movement.

Await Arrival of Reyes?

MEXICO CITY, Oct. 4.—El Pais today publishes a sensational telegram from San Antonio, to the effect that the followers of General Reyes and the deposed president, General Diaz, have established a junta in that city and await the arrival of Reyes. The telegram permits the inference that a new insurrection is to be begun.  
The paper also publishes a dispatch from Juarez saying a revolt will be begun before December. General Madero, the president-elect, attaches little importance to these reports, but it is understood that he is taking measures to keep himself well informed of developments.  
General Reyes, who abandoned his candidacy for the presidency just before the election of Sunday last, sailed from Havana for New Orleans yesterday. Samuel Espinosa, Dr. Jose Montero, president of the Central Republic club, is said to be in San Antonio. A cablegram received here Sunday from Reyes said he was going to San Antonio.

U. S. Ready to Act.

WASHINGTON, Oct. 4.—Assurances from American consuls in Mexico that the Mexican presidential and vice-presidential elections were characterized by good order and feeling, make the officials skeptical as to the accuracy of the report that General Reyes is about to head another junta at San Antonio, Tex., to foment a revolutionary movement against Madero.  
The department of justice and the war departments are prepared to enforce the neutrality laws if such an attempt is made.

## Black Bear Thief Killed by Shot Fired in Darkness

Shooting in the dark at they knew not what C. E. Kemp of this city and four other hunters who made up a deer hunting party, near Delhi, killed a black bear Tuesday night. The party had gone into camp for the night and were awakened from their sleep by the sound of a prowler about the carcasses of four deer which the hunters had killed the day before. Each man caught up his gun and took a chance shot in the dark. Without investigating the result of the random shooting the five of them went to sleep again. In the morning they found the bear with one bullet hole in his head. Besides Mr. Kemp the party is composed of F. J. O'Brien and B. B. McGinnis of Pueblo; S. C. Hallock of Denver; and A. J. Johnson of Canon City.

## AVIATOR SERIOUSLY HURT

ST. LOUIS, Oct. 4.—Hillery Beachy, an aviator, who has lived here for some months, was seriously injured late today when he tried to land his airplane in a school yard. He was unconscious when he was taken to a hospital, but late tonight it was said he would recover. The machine struck a shed and Beachy was thrown 25 feet to a brick pavement. The machine was wrecked.

## ETHEL BARRYMORE ILL

SOUTH BEND, Ind., Oct. 4.—Ethel Barrymore, the actress, became ill suddenly from peritonitis, today, and canceled engagements for the next 10 days. Russell G. Colt, Jr., her husband, has been summoned from New York.

## MORE BLOODSHED ACCOUNT STRIKE SOUTHERN POINTS

Citizens of McComb City, Miss., Force Railroad to Send Strikebreakers Away

HOUSTON, Tex., Oct. 4.—Four guards employed in the Southern Pacific shops were fired upon at midnight by unidentified persons. One guard named Tullis was struck by a bullet and is believed to be fatally wounded. The other guards were uninjured. The men who fired the shots escaped.

WATER VALLEY, Miss., Oct. 4.—In an exchange of shots with Sheriff South and two deputies tonight, a member of the special force of guards stationed at the Water Valley shops of the Illinois Central railroad was wounded. The wounded man was carried within the shops inclosed.

Quiet at McComb City.

McCOMB CITY, Miss., Oct. 4.—With the enforced departure late this afternoon of the last of the strikebreakers brought here by the Illinois Central railroad came the first real assurance of the restoration of peace after 24 hours of excitement and sporadic rioting. The people of McComb City demanded that the strikebreakers be removed from their community, and the 132 men were placed aboard a heavily guarded train and hurried to New Orleans.

Sixty soldiers armed with ball cartridges and with orders to shoot to kill, if necessary, accompanied the train as far as Magnolia. This action by the military authorities probably prevented another battle.

About half an hour before the train departed several persons, well armed, left the city going south and took a position on the railroad track on which the special would have to pass to New Orleans. Strike leaders in automobiles finally persuaded the men to disband and commit no overt act.

Three companies of Mississippi National guard patrolled the streets at dark, and tonight the belief is expressed that the town will remain quiet.

Cut Air Hose on Freight Cars.

SAN FRANCISCO, Oct. 4.—Additional strikebreakers arrived here from eastern points today, swelling the list now at work in the Mission Bay shops to 150 men. Picketing continues, 40 union men keeping the stackade surrounded constantly, but as yet there has been no demonstration or suggestion of violence.

Wholesale cutting of air hoses on freight cars is the only violence reported from Oakland tonight.

OGDEN, Utah, Oct. 4.—Although no violence has occurred here in connection with the strike of the shopmen of the Harriman lines, extra guards were placed around the union depot tonight to prevent any demonstration which may be planned when President Taft arrives here at 4:30 o'clock tomorrow morning.

LOS ANGELES, Oct. 4.—"I would rather see the strike lost, than have any bloodshed or see any violence, as was the case in the railway strike of 1904," said A. D. Yancey, chairman of the strikers' committee in this city and a member of the local board of directors of the shopmen's federation, which struck Saturday, made this statement late today, immediately after a mass meeting of 1,200 strikers in the Labor temple.

"We do not want violence, and will not tolerate it," Yancey continued. "At the meeting this afternoon all strikers were given orders not to carry weapons. Another thing done at the meeting was to issue orders to the men to do absolutely no picketing."

Railroad officials reported no change in the situation so far as the operation of trains was concerned.

## W. A. DAVIS COLONEL OF COLO. NATIONAL GUARD

W. A. Davis of this city, for many years lieutenant-colonel of the Second infantry regiment, Colorado National guard, has just been promoted to colonel, succeeding Lewis Barnum, resigned. The order was issued yesterday by Governor Shafroth.  
Lieutenant-Colonel Edward Verdeckberg of the First infantry regiment also was elevated to the position of colonel, his former office, as a result of the resignation of Colonel Zeph T. Hill.  
These two appointments take effect at once, as does that of P. J. Hamrick, promoted from captain of Company I, First infantry, to major of First infantry. Major J. B. Goodman, Jr., of the ordnance department, is named major First field artillery, with rank dating from February 25, 1910.

## RAILWAYS SEEK SUSPENSION OF ORDER

Claim Interstate Commerce Body's Rate Ruling Is Unreasonable

WASHINGTON, Oct. 4.—The transcontinental railways today asked the interstate commerce commission to suspend its orders in what are known as the "Pacific coast cases" involving the heaviest railroad traffic in the United States, until the commerce court has had time to pass upon their merits. The roads also asked the commerce court to enjoin the commission in the meantime. Neither the commission nor the court took any action.

It was indicated to the commission by Attorney Norton of the Atchafalaya, Topeka, and Santa Fe, and by the Union Pacific reporting all the carriers interested in the cases that the railways purpose to institute proceedings in injunction before the commerce court to restrain the interstate commerce commission from putting into effect its orders reducing the transcontinental freight rates.

The orders of the commission will not become effective until November 15, and it is considered by the commission that the commerce court would have ample time, meanwhile to pass upon the questions involved.  
Until the commerce court has taken up the matter the commission will not grant the application of the carriers for a suspension of its orders.  
Late this afternoon the railways through Attorneys Norton and Dillard, filed with the commerce court bills asking for the temporary injunction in all the Pacific coast cases. These include the Spokane rate case, the Reno case, the Marietta county commercial rate case and others.

In every instance the railways complained that the rates fixed by the commission are unreasonably low and that they will, if enforced, not enable the carriers to make a fair return upon their investments and will amount to a confiscation of property. Existing rates were defended and denial made of the commission's right, under the constitution to prescribe the rates which are fixed in its orders of last June.

It is likely the commerce court will take up the cases in a few days with a view of determining whether the temporary injunction shall be granted. In any event the probability is that the questions involved will reach the supreme court.

## SALESMAN DROPS DEAD

DENVER, Oct. 4.—Charles A. Barnes, 48 years old, a salesman for the Duke Hans Mercantile company at Hotchkiss, Colo., dropped dead in a Denver restaurant while eating breakfast.

## BIG DELEGATION WILL GO TO FAIR AT CALHAN

The committee, headed by Frank F. Wulff, which has in hand arrangements for the Chamber of Commerce excursion to Calhan tomorrow is making things hum.  
As a result of its active campaign yesterday, a delegation of 100 representative business and professional men was practically assured, and arrangements are being completed for a special train over the Rock Island. It will be scheduled to leave Colorado Springs at 9:15 o'clock tomorrow morning, returning at about 6:30 o'clock in the evening. The tickets, however, will be good returning Saturday, and many of the business men are planning not only to participate with the Calhan fair people "Colorado Springs day," but will remain over for "Dry Farming congress day," Saturday.

The fair opened yesterday, the day being devoted largely to the placing of exhibits and completion of preliminary arrangements. Today there will be a baseball game, balloon ascension, addresses and a number of races. A special program has been arranged for tomorrow, its features being:

- Tomorrow's Program.  
10:30 a. m.—Baseball game.  
12 m.—Dinner.  
1 p. m.—Address of welcome and response.  
1:30 p. m.—Novelty race.  
2 p. m.—All harness, 2:40 class, one mile race.  
2:15 p. m.—100-yard foot race for Colorado Springs men.  
2:30 p. m.—One-half mile dash.  
2:45 p. m.—50-yard foot race for Colorado Springs women.  
3 p. m.—Second heat in 2:40 class.  
3:15 p. m.—50-yard foot race for Colorado Springs girls under 14 years of age.  
3:30 p. m.—Half-mile race for lady riders.  
3:45 p. m.—One-half mile mule race.  
4 p. m.—300-yard pony race.  
4:15 p. m.—Fire ride in a balloon.  
It is requested that all persons desiring to take part in the excursion secure tickets today from Mr. Wulff, J. E. Newsome, J. G. Dorn, Fred A. Spry or at the office of the chamber of Commerce.

## King Bee--For Coal

A stove embodying all the  
latest improvements and de-  
signed to burn equally well  
either hard or soft coal.

Has exposed fire pot which  
will outlast a dozen inclosed fire  
pots and give better results.  
Each KING BEE AIR BLAST  
is mounted with our Anti-Buck-  
ling Ring which prevents buck-  
ling or warping in the drum  
at top of fire pot, effectively  
preventing any possible draft  
getting in between fire pot and  
drum, however long the stove  
may be used.

Call and see this particular  
stove.

Germany imported more than 3,000  
tons of fruit waste in 1910, principally  
apple and pear peelings and cores, to  
be used by jelly manufacturers

## PANAMA MINISTER TO U. S. SEES TRICKERY

Believes His Recall Is Trick to Cripple  
His Candidacy for the  
Presidency.

WASHINGTON, Oct. 4.—Political  
trickery, spying of the Panama gov-  
ernment on its own legation here and  
chicanery designed to cripple his can-  
didacy for the presidency were al-  
leged by Dr. Belisario Porras today to  
be the reasons underlying his recall  
from Washington. Dr. Porras attrib-  
uted the whole affair to a political in-  
trigue of President Arce.

Dr. Porras, on his return from New  
York where he had gone to bring to  
this city his wife whom he had mar-  
ried by proxy several weeks ago, found  
the cablegram announcing his recall.  
He said the cablegram had been timed  
by his political enemies to reach Wash-  
ington on the arrival of his wife who  
had been made ill by the developments.

Dr. Porras made a remark on the state-  
ment of the peculiar condition under  
which he has been laboring in Wash-  
ington. In substance this was that  
there was sent as his attaché at the  
legation soon after his own ap-  
pointment Jose G. Battaglia, a close  
friend of President Arce.

Later came a young man named Ossa  
who had been studying the police sys-  
tem in New York for the Panama gov-  
ernment. The latter was made pri-  
vate secretary to Dr. Porras.

A little difficulty at the legation where-  
upon Ossa told Dr. Porras that Bat-  
taglia had been sent here by the Pan-  
ama president to spy on the minister  
and to learn anything adverse to him.  
Battaglia was called in and the min-  
ister asked if the charges made by  
Ossa were true. Battaglia replied that  
they were.

Dr. Porras said that later Ossa and

## SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair  
to Natural Color Dandruff  
Quickly Removed.

There is nothing new about the idea  
of using sage for restoring the color of  
the hair. Our great-grandmothers kept  
their locks soft, dark and glossy by  
using a "sage tea." Whenever their  
hair fell out or took on a dull, faded or  
streaked appearance they made a brew  
of sage leaves and applied it to their  
hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to  
old-time, tiresome methods of gathering  
the herbs and making the tea. This is  
done by skillful chemists better than we  
could do it ourselves, and all we have to  
do is to call for the ready-made product,  
Wyneth's Sage and Sulphur Hair Rem-  
edy, containing sage in the proper  
strength, with the addition of sulphur,  
another old-time scalp remedy.

The manufacturers of this remedy  
authorize druggists to sell it under guar-  
antee that the money will be refunded if  
it fails to do exactly as represented.  
This preparation is offered to the  
public at fifty cents a bottle, and is  
recommended and sold by all druggists.  
Special agent, Robinson Drug Co., 102  
E. Pike's Peak Ave.

## PROPER TREATMENT FOR CATARRH

The first thing to be done in the  
treatment of Catarrh is to begin the  
use of a medicine that will have a  
direct effect on the source of the dis-  
ease; in no other way can any curative  
progress be made. S. S. S. does  
this more quickly and satisfactorily  
than any other medicine. It is the  
most penetrating of all blood puri-  
fiers, thoroughly, yet gently, expell-  
ing all catarrhal matter and impuri-  
ties from the circulation, and by its  
fine tonic properties strengthening  
and building up the system in such  
healthy manner that it is enabled to  
overcome the depressing effects of  
Catarrh. Some local treatment is  
often desired to open the air passages  
of the head and nose and relieve the  
congestion and "tickling" of the  
throat, and other unpleasant sym-  
ptoms. There are many helpful mea-  
sures which may be resorted to, and  
there are others which may be harm-  
ful, and to aid Catarrh sufferers we  
have prepared a special treatise on  
the disease which will be of great  
value to any who suffer with this  
trouble. This book together with  
any medical advice free to all who  
write and request it. Take S. S. S.  
regularly and according to directions,  
and it will certainly remove the cause  
and cure your Catarrh. S. S. S. is  
sold at drug stores.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Battaglia were seen occupying the same  
cabin on a vessel bound for Panama.

As Battaglia had been the confidant  
of Dr. Porras, the minister said he  
believed his every move had been com-  
municated to Arce and that he  
(Porras) was charged with being a  
traitor because he had married his  
Costa Rican wife in the midst of the  
boundary dispute.

Later it was charged that he did not  
have the interest of his government  
at heart because he had made a verbal  
offer to the state department of the  
Island of Charco for an American coal-  
ing station.

It is likely to be some time before  
Dr. Porras will leave Washington for  
Panama. If he should be nominated  
for the presidency on the Liberal ticket  
the minister said he would accept.

Not Satisfied With Services.

PANAMA, Oct. 4.—President Arce  
states that at a cabinet meeting  
yesterday afternoon, it was decided to  
recall the Panama minister to the  
United States, Dr. Belisario Porras, as  
the government was not satisfied with  
his services. The foreign secretary,  
Dr. Frederico Boyd, voted against the  
recall.

The assembly in September, 1910  
elected Arce as first vice president  
and he became acting president for the  
unexpired term of the late President  
Obaldia.

## CRITICISM HINDERS

(Continued From Page One.)

chose the races between cowboys and  
the roping of wild horses with great  
interest. He reviewed several thou-  
sand soldiers from Fort D. A. Rus-  
sell inspected the town from an au-  
tomobile, and smoke on his tariff vet-  
oes in the opera house to a good-sized  
crowd.

At Laramie, the president was taken  
for a short automobile ride after  
which he made a brief speech, and at

## Cascarets Cleanse Liver and Bowels

No Biliousness, Headache, Sick,  
Sour Stomach, Indigestion, Coat-  
ed Tongue or Constipation

Furred Tongue, Bad Taste, Indiges-  
tion, Sallow Skin and Miserable Head-  
aches come from a torpid liver and  
clogged bowels, which cause your  
stomach to become filled with undig-  
ested food, which sours and ferments  
like garbage in a swill barrel. That's  
the first step to untold misery—Indig-  
estion, foul gases, bad breath, yellow  
skin, mental fears, everything that is  
horrible and nauseating. A Cascaret  
tonight will give you a thorough  
cleansing inside and straighten you  
out by morning. They work while you  
sleep—a 10-cent box from your drug-  
gist will keep you feeling good for  
months. Millions of men and women  
take a Cascaret now and then to keep  
their stomach, liver and bowels regu-  
lated, and never know a miserable  
moment. Don't forget the children—  
their little insides need a good, gentle  
cleansing, too.

Rawlins he made another short talk  
from the rear platform of his car.

The Frontier day show at Cheyenne  
was as near a reproduction of the an-  
nual affair as Charlie Irwin, who runs  
the shows and who can ride an auto-  
mobile almost as well as he can a  
horse, could make it. There were  
about 60 cowboys, cowgirls, busters and  
less important persons connected with  
it. Mr. Taft watched the perform-  
ance from the judges stand with  
United States Senator Warren and  
Governor Carey and appeared to en-  
joy exceedingly the riding of buck-  
ing and outlaw horses. The stands  
held only a few thousand persons out-  
side the soldiers from Fort Russell,  
nearby, and the element of the pic-  
turesque that the natives say is seen  
in the annual affairs was lacking to a  
large degree.

Charlie Irwin showed that he is a  
good stage manager, however, by re-  
naming some of the ponies entered in  
the bucking contest.

Well-Known Names.

There was one called "Billy Taft,"  
another named "Archie Butt," a third  
that bucked by the name of "Sched-  
ule K" and another that the residents  
of Cheyenne declared was almost un-  
ridable that Irwin had put down on  
the program as "Teddy Roosevelt,"  
"Reciprocity," "Gin Fizz," "Old Steam-  
boat" and a few others under names  
less pertinent to a president's recep-  
tion also ran.

"Billy Taft" was the first pony to be  
saddled and Jack Martin, a buster,  
with real chaps with the hair on them  
a foot long, tried to ride him. Mar-  
tin got about 20 feet beyond the  
judges' stand and then dismounted  
head foremost. Major Archibald Butt,  
the president's aide, smilingly com-  
mented to his chief.

Next came "Archie Butt," ridden by  
Frank Carter, former champion buster  
of the world. Archie proved doc-  
ile and Carter rode him easily up the  
track and into the corral, while Mr.  
Taft turned to his aide and smiled.  
"Senator Warren," ridden by Hugh  
Clark, "Aeroplane," with Bill Baker  
on his back "Reciprocity," ridden by  
John Rickall, were subdued handily  
and "Schedule K" gave up almost with-  
out a struggle, whereas those in the  
president's party laughed heartily.

"Teddy Roosevelt" a Bad One.

"Teddy Roosevelt" manned by Paul  
Hansen insisted upon converting him-  
self into a small whirlwind that re-  
voluted at an estimated speed of not  
less than 30 miles an hour. Hansen  
stuck on for a couple of minutes, but  
then decided to descend and chose  
"Teddy's" head as a stepping block.  
In the ladies' half-mile race, Paul  
Irwin, a little girl with golden hair  
tied with bright red ribbon, dressed  
in a khaki riding suit, came under  
the wire first, riding as well as most  
of the men did, standing up in the  
stirrups with a whip in one hand and  
getting all the plaudits of the crowd.

The president left at the conclusion  
of the show. Just before he entered  
his automobile, he shook hands with  
Irwin and his daughters and the  
punchers and busters. As his auto-  
mobile puffed away Irwin stood up in  
his stirrups and yelled with a wink  
in his eye to show that he knew auto-  
mobiles as well as horses:  
"Slip her in the high, Bill."

In the opera house the president  
declared among other things that the  
present wool tariff is too high and  
announced his intention to recommend  
its revision downward. Cheyenne is  
in the center of the sheep country and  
the president got little applause for  
that announcement.

The world's herd of swine numbers  
100,000,000, two-fifths of which belong  
to the United States.

## START TODAY

(Continued From Page One.)

since the cup was first offered by the  
millionaire sportsman. The first race  
was won by Lieutenant Lahm, who  
brought to America the honor of hold-  
ing the next competition for it. Herr  
Oscar Erbsloch of Germany won the  
second race, which started from St.  
Louis. The third race, from Berlin,  
resulted in victory for Edgar A. Mix,  
an American, and the 1910 contest was  
scheduled for St. Louis. Alan R.  
Hawley and Augustus Post of New  
York successfully defended it by fly-  
ing 1,171 miles into northeast Canada.  
Hawley was offered a place on this  
year's American team, but he was  
unable to accept it because of the press  
of business. Last year's race, in ad-  
dition to France, Germany and the  
United States, had Switzerland as a  
contestant.

Woman in Race.

Simultaneously with the start of the  
international race, three other bal-  
loons will ascend, as unofficial en-  
trants, with their pilots striving to  
break the distance record and win the  
Lahm cup, donated by the young army  
officer for the American record holder.  
One of these flyers is a woman, Mrs.  
Charles A. Coey of Chicago. Of the  
two other balloons, the Kansas City II  
will be piloted by H. E. Honeywell of  
St. Louis. The pilot for the Topeka II  
has not yet been selected.

The first starter in the international  
race will arise at 4 o'clock tomorrow  
afternoon, the others following at five-  
minute intervals, which will place the  
last one in the air at 4:45.

George M. Myers, president of the  
Kansas City Aero club, which has  
charge of the arrangements for the  
race, under the auspices of the Aero  
club of America, conferred today with  
Albert Bond Lambert, president of the  
St. Louis Aero club, who has had  
much ballooning experience, over the  
final details of the start.

## ITALIANS DO GREAT

(Continued From Page One.)

but some of them were destroyed, and  
the governor's palace and the three  
forts at the entrance of the port are  
in ruins.

The second division of the fleet un-  
der Vice Admiral Thaon di Revel has  
approached close to Benghazi and  
Derna. A bombardment of these ports,  
it is understood, has been ordered to  
begin tomorrow. It is denied that  
bluejackets will land soon. Such a  
landing may be decided upon after the  
arrival of the expeditionary corps.

Before commencing the bombardment  
of Tripoli, the Italian squadron re-  
moved all mines and made a careful  
revision of the hydrographic chart to  
insure safety to the coming transports.  
This operation lasted several days and  
probably was the real reason for the  
delay in the bombardment.

Four Italian officers have come to  
Djerba and are proceeding overland to-  
ward Tripoli on a reconnoitering ex-  
pedition, as the Arabs are expected to  
offer stubborn resistance to the occu-  
pation of the vilayet.

Mytilen Reported Occupied.

LONDON, Oct. 4.—A news agency  
dispatch from Vienna says it is re-  
ported from Constantinople that an  
Italian squadron has bombarded and  
occupied Mytilen, capital of the island  
of Lesbos in the Grecian archipelago,  
belonging to Turkey.

CONSTANTINOPLE, Oct. 4.—Pol-  
itical differences within the capital  
are multiplying, and it seems impos-  
sible to form a cabinet. Members of  
the committee of union and progress  
are unwilling to take office, as they  
do not wish to assume responsibility  
for recent events, while the elder  
statesmen refuse to undertake the task  
of government unless the committee  
dissolves.

A deadlock practically has been  
reached and the only solution is held  
to be the dissolution of the commit-  
tee and ending of the war on the best  
terms obtainable.

## WOMEN FOR GOOD ROADS

DENVER, Oct. 4.—Indorsement of  
the Lincoln transcontinental highway  
and the proposition to initiate an  
eight-hour law for women, modeled  
after the Oregon law, were features  
of today's opening session of the Colo-  
rado State Federation of Women's  
clubs. The delegates were welcomed  
to Denver by Mrs. Dewey C. Bailey,  
president of the local club, and re-  
sponses were made by Mrs. Milo J.  
Evans and Mrs. Helen M. Wilson,  
state superintendent of public instruc-  
tion.

The convention was addressed by  
George H. Glover of the Agricultural  
college faculty on the topic, "As a  
Man Eats, So He He." Dr. Glover dis-  
cussed pure and impure foods and re-  
medies for bettering faulty conditions in  
obtaining food supplies.

The delegates took up the problem  
of restricting the state with a view  
to facilitating federation work.

## PROTESTS ACCEPTANCE OF IRRIGATION WORK

DENVER, Oct. 4.—Harry B. Sims has  
applied to the district court in Weld  
county for an injunction restraining  
the Henrylyn Irrigation district,  
through its directors, from accepting  
the work performed for the district by  
the Kenefick Construction company and  
paying to the latter \$1,375,000 worth of  
the district bonds as last payment on  
the contract for constructing the 53-  
stem at a cost of \$3,450,000.

Arthur Day, receiver for the Denver  
Reservoir Irrigation company has ap-  
plied to Judge George W. Allen in the  
Denver district court for a temporary  
injunction restraining Sims from pre-  
suing his case in the Weld county  
court.

The will of Margaret A. Weller, said  
to have been the first woman in Amer-  
ica to use a typewriter, was filed in the  
probate court. The document, which  
contains more than 1,000 words, was  
written in long hand by the woman  
and contains many technical legal  
phrases. She like her husband, was a  
court stenographer and resided at 3732  
Winwood place.—St. Louis Globe-Dem-  
ocrat.

Until a short time  
ago, scarcely one  
person in a thousand  
had ever tasted a  
really good soda  
cracker as it came  
fresh and crisp from  
the oven.

Now every man,  
woman and child in  
these United States  
can know and en-  
joy the crisp good-  
ness of fresh baked  
soda crackers with-  
out going to the  
baker's oven.

Unceda Biscuit

you.

Millions of people  
know these perfect  
Soda Crackers in  
their original good-  
ness. More millions  
will enjoy them  
daily when once  
they know how  
good they are.

A food to live on.  
Stamina for work-  
ers. Strength for the  
delicate. Bone and  
flesh for little folks.

It will cost you just  
5 cents to try  
Unceda Biscuit.  
Never sold in bulk,  
always in the mois-  
ture proof package.

## NATIONAL BISCUIT COMPANY

### TOO MANY APPLICATIONS FOR DIVORCE IN K. C.

KANSAS CITY, Oct. 4.—So numer-  
ous have become applications for di-  
vorces at each session of the circuit  
court in this county that the judges of  
the court, sitting en banc today decided  
some action must be taken to stop the  
rush. Several judges favor having the  
board of public welfare employ an at-  
torney or attorneys to investigate each  
suit as it is filed.

### GRIFFITH TO WASHINGTON TO ARGUE IN WATER SUIT

DENVER, Oct. 4.—Attorney General  
Ben Griffith will leave tomorrow for  
Washington to argue Colorado's case  
in the Wyoming-Colorado water suit  
before the supreme court. The right  
of one state to use water within its  
border is involved. Griffith will ask  
the supreme court for additional time  
to collect more statistical evidence.

**SHERMAN TRUST LAW BERATED BY PERKINS**

Accuses Democrats and Republicans of Bad Faith in Their Campaign Pledges

DETROIT, Mich., Oct. 4.—Speaking today before the Detroit board of commerce to the topic, "It Is the Function of the Law to Define and Punish Wrong Doing and Not to Throttle Business," George W. Perkins of New York said that the people had voted in favor of amending the Sherman antitrust law. The voters, he said, had approved a plank of the Republican national platform in 1908.

This plank read:

"The Republican party passed the Sherman antitrust law over Democratic opposition and enforced it after Democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. But experience has shown that its effectiveness can be strengthened by such amendments as will give to the federal government greater supervision and control over and secure greater publicity in the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies."

Desires Clearly Indicated.

Mr. Perkins said there could be no mistaking the language used. The Republican party had expressed itself in favor of amending the Sherman act; it clearly indicated that there existed companies having power and opportunity to effect monopolies, and also clearly indicated the lines along which the law should be amended.

"The Democratic party," he continued, "at the same time in the trust plank of its platform, among other things, declared for a policy that would prohibit the control by a manufacturing or trading corporation engaged in interstate commerce of more than 50 per cent of the total amount of any product consumed in the United States."

"With these platforms, the respective parties went before the people of this country in a vigorous campaign. Each party attacked the other's platform and the subject was debated pro and con all over the land. One is safely within bounds in saying that the most effective speaker in the Republican cause in that campaign was Governor Hughes, and equally within bounds in saying that the most effective speech of the campaign was his reply to Bryan, delivered at Youngstown, O., on September 8, 1908. In that speech, Governor Hughes analyzed the platforms of the respective parties in no uncertain language."

What the People Wanted.

Mr. Perkins quoted extensively from Mr. Hughes' speech and said:

"With such platforms and after such a campaign, the people voted on the issues submitted and by a plurality returned the Republican party in both the legislative and executive branches. In place of providing the outside publicity and supervision for which the Republican party pronounced, for which Governor Hughes' speech so ably argued and which the people of this country endorsed, absolutely nothing at all was done. And we are now witnessing the spectacle of the Republican party not only failing to carry out the trust plank in its own platform, but actually vigorously carrying out the trust plank of the Democratic platform, which it so strenuously attacked and which the American people repudiated."

"The only vestige of keeping faith with the people on anything involved in this question and as discussed in the campaign is found in the supreme court's recent trust decisions, wherein the 'rule of reason' is applied and in connection with significant facts are the following closing sentences from the Youngstown speech of Governor Hughes for the last year a member of the supreme court:

"But in our progress we must seek to avoid false steps. Ours must be the rule of reason, clear-eyed, calm, pa-

dent and steadfast; defeating the conspiracies of intrigue and escaping the pitfalls of folly. 'Supreme must be the sense of justice, with its recognition of our mutual dependence.'

"The congress which adopted this 'do nothing' policy, which failed to carry out these as well as other instructions received from the people in the last national election was repudiated by the people at our election of a year ago, and now chaotic conditions exist in the corporate business world which mingle the innocent and the guilty in a common condemnation."

Public Unchanged.

There is nothing to indicate that the people have changed their ideas in this respect. On the contrary, the approval, expressed by all classes of people in all sections of the country of the supreme court's adoption of Governor Hughes' policy of the rule of reason is added proof that the people of this country look to our statesmen for a constructive national policy in the matter of business.

"Senator Cummins was reported by the newspapers as having said a few days ago:

"'Personally, I believe the antitrust law should be amended or supplemented. The situation is intolerable. The extent of lawful restraint cannot be known by a business man until he is prosecuted and his case reaches the court. He does not and cannot know as he proceeds with his business whether he is a good citizen or a criminal.'

"That is precisely the situation. It seems incredible that in solving our industrial problems we cannot follow some of the precedents that we ourselves have established in solving other problems."

"Attempt to sweep the country back into the old era of a vigorous competition which would be the direct consequence of a vigorous enforcement of the Sherman law and that will return the evils of deceit and fraud in business, violent fluctuations in prices, the deliberate driving to the wall of weak concerns and the eventual creation of monopolies by survivors."

Mr. Perkins suggested that the government appoint a commission to investigate the status of trusts and to recommend just what would be proper to prevent immoral dealing by them before more drastic action for their dissolution were undertaken. He also suggested that large business combinations should give to the federal government all facts concerning their capital and business, so that, without government ownership there would be

## PANAMA MINISTER TO U. S. SEES TRICKERY

Believes His Recall Is Trick to Cripple His Candidacy for the Presidency.

WASHINGTON, Oct. 4.—Political trickery, spying of the Panama government on its own legation here and chicanery designed to cripple his candidacy for the presidency were alleged by Dr. Belisario Porras today to be the reasons underlying his recall from Washington. Dr. Porras attributed the whole affair to a political intrigue of President Arosemena.

Dr. Porras, on his return from New York where he had gone to bring to this city his wife whom he had married by proxy several weeks ago, found the cablegram announcing his recall. He said the cablegram had been timed by his political enemies to reach Washington on the arrival of his wife, who had been made ill by the developments.

Dr. Porras made a remarkable statement of the peculiar condition under which he has been laboring in Washington. In substance this was that there was sent as his attaché at the legation soon after his own appointment Jose G. Battalla, a close friend of President Arosemena. Later there came a young man named Ossu who had been studying the police system in New York, for the Panama government. The latter was made private secretary to Dr. Porras.

A little difficulty between these two men developed at the legation whereupon Ossu told Dr. Porras that Battalla had been sent here by the Panama president to spy on the minister and to learn anything adverse to him. Battalla was called in and the minister asked if the charges made by Ossu were true. Battalla replied that they were.

Dr. Porras said that later Ossu and

## PROPER TREATMENT FOR CATARRH

The first thing to be done in the treatment of Catarrh is to begin the use of a medicine that will have a direct effect on the source of the disease; in no other way can any curative progress be made. S. S. S. does this more quickly and satisfactorily than any other medicine. It is the most penetrating of all blood purifiers, thoroughly, yet gently, expelling all catarrhal matter and impurities from the circulation, and by its fine tonic properties strengthening and building up the system in such healthy manner that it is enabled to overcome the depressing effects of Catarrh. Some local treatment is often desired to open the air passages of the head and nose and relieve the congestion and "tickling" of the throat, and other unpleasant symptoms. There are many helpful measures which may be resorted to, and there are others which may be harmful, and to aid Catarrh sufferers we have prepared a special treatise on the disease which will be of great value to any who suffer with this trouble. This book together with any medical advice free to all who write and request it. Take S. S. S. regularly and according to directions, and it will certainly remove the cause and cure your Catarrh. S. S. S. is sold at drug stores.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Battalla was seen occupying the same cabin on a vessel bound for Panama.

As Battalla had been the confidant of Dr. Porras, the minister said he believed his every move had been communicated to Arosemena and that he (Porras) was charged with being a traitor because he had married his Costa Rican wife in the midst of the boundary dispute.

Later it was charged that he did not have the interest of his government at heart because he had made a verbal offer to the state department of the island of Chiriqui for an American coaling station.

It is likely to be some time before Dr. Porras will leave Washington for Panama. If he should be nominated for the presidency on the Liberal ticket the minister said he would accept.

Not Satisfied With Services.

PANAMA, Oct. 4.—President Arosemena states that at a cabinet meeting yesterday afternoon, it was decided to recall the Panama minister to the United States, Dr. Belisario Porras, as the government was not satisfied with his services. The foreign secretary, Dr. Frederico Boyd, voted against the recall.

The assembly in September, 1910, elected Arosemena first vice president and he became acting president for the unexpired term of the late President Obaldia.

## CRITICISM HINDERS

(Continued From Page One.)  
ches, the races between cowboys and the roping of wild horses, with great interest. He reviewed several thousand soldiers from Fort D. A. Russell, inspected the town from an automobile, and spoke on his tariff views in the opera house in a good-sized crowd.

At Larumie, the president was taken for a short automobile ride, after which he made a brief speech, and at

## Cascarets Cleanse Liver and Bowels

No Biliousness, Headache, Sick, Sour Stomach, Indigestion, Coated Tongue or Constipation

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give you a thorough cleansing inside and straighten you out by morning. They work while you sleep—a 10-cent box from your drugist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing, too.

Hawkins he made another short talk from the rear platform of his car.

The Frontier day show at Cheyenne was as near a reproduction of the annual affair as Charlie Irwin, who runs the shows and who can ride an automobile almost as well as he can a horse, could make it. There were about 60 cowboys, cowgirls, busters and jinks. Mr. Taft watched the performance from the judges stand with United States Senator Warren and Governor Carey and appeared to enjoy exceedingly the riding of bucking and outlaw horses. The stands held only a few thousand persons outside the soldiers from Fort Russell, nearby, and the element of the picturesque that the natives say is seen in the annual affairs was lacking to a large degree.

Charlie Irwin showed that he is a good stage manager, however, by re-naming some of the ponies entered in the bucking contest.

Well-Known Names.

There was one called "Billy Taft," another named "Archie Butt," a third that bucked by the name of "Schedule K" and another that the residents of Cheyenne declared was almost unriddable that Irwin had put down on the program as "Teddy Roosevelt." "Reciprocity," "Gin Fizz," "Old Steamboat" and a few others under names less pertinent to a president's reception also ran.

"Billy Taft" was the first pony to be saddled and Jack Martin, a buster, with real chaps with the hair on them a foot long, tried to ride him. Martin got about 20 feet beyond the judges' stand and then dismounted head foremost. Major Archibald Butt, the president's aide, smilingly commented to his chief.

Next came "Archie Butt," ridden by Frank Carter, former champion buster of the world. Archie proved docile and Carter rode him easily up the track and into the corral, while Mr. Taft turned to his aide and smiled. "Senator Warren," ridden by Hugh Clark, "Aeroplane," with Bill Baker on his back, "Reciprocity," ridden by John Rickall, were subdued handily and "Schedule K" gave up almost without a struggle, whereas those in the president's party laughed heartily.

"Teddy Roosevelt," a Bad One.

"Teddy Roosevelt," manned by Paul Hansen insisted upon converting himself into a small whirlwind that revolved at an estimated speed of not less than 30 miles an hour. Hansen stuck on for a couple of minutes, but then decided to descend and chose "Teddy's" head as a stepping block. In the ladies' half-mile race, Paul Irwin, a little girl with golden hair tied with bright red ribbon, dressed in a khaki riding suit, came under the wire first, riding as well as most of the men did, standing up in the stirrups with a whip in one hand and getting all the plaudits of the crowd.

The president left at the conclusion of the show. Just before he entered his automobile, he shook hands with Irwin and his daughters and the punchers and busters. As his automobile puffed away Irwin stood up in his stirrups and yelled with a wink in his eye to show that he knew automobiles as well as horses. "Sit her in the high, Bill!" In the opera house the president declared among other things that the present wool tariff is too high and announced his intention to recommend its revision downward. Cheyenne is in the center of the sheep country and the president got little applause for that announcement.

The world's herd of swine numbers 100,000,000, two-fifths of which belongs to the United States.

## START TODAY

(Continued From Page One.)

since the cup was first offered by the millionaire sportsman. The first race was won by Lieutenant Lahm, who brought to America the honor of holding the next competition for it. Herr Oscar Erbsloeh of Germany won the second race, which started from St. Louis. The third race, from Berlin, resulted in victory for Edgar A. Mix, an American, and the 1910 contest was scheduled for St. Louis. Alan R. Hawley and Augustus Post of New York successfully defended it by flying 1,171 miles into northeast Canada. Hawley was offered a place on this year's American team, but he was unable to accept it because of the press of business. Last year's race, in addition to France, Germany and the United States, had Switzerland as a contestant.

Woman in Race.

Simultaneously with the start of the international race, three other balloons will ascend, as unofficial entrants, with their pilots striving to break the distance record and win the Lahm cup, donated by the young army officer for the American record holder. One of these flyers is a woman, Mrs. Charles A. Coey of Chicago. Of the two other balloons, the Kansas City II will be piloted by H. E. Honeywell of St. Louis. The pilot for the Tepeka II has not yet been selected.

The first starter in the international race will arise at 4 o'clock tomorrow afternoon, the others following at five-minute intervals, which will place the last one in the air at 4:45.

George M. Myers, president of the Kansas City Aero club, which has charge of the arrangements for the race, under the auspices of the Aero club of America, conferred today with Albert Bond Lambert, president of the St. Louis Aero club, who has had much ballooning experience, over the final details of the start.

## ITALIANS DO GREAT

(Continued From Page One.)

but some of them were destroyed, and the governor's palace and the three forts at the entrance of the port are in ruins.

The second division of the fleet under Vice Admiral Thaon di Revel has approached close to Benghazi and Derna. A bombardment of these ports, it is understood, has been ordered to begin tomorrow. It is feared that bluejackets will land soon. Such a landing may be decided upon after the arrival of the expeditionary corps.

Before commencing the bombardment of Tripoli, the Italian squadron removed all mines and made a careful revision of the hydrographic chart to insure safety to the coming transports. This operation lasted several days and probably was the real reason for the delay in the bombardment.

Four Italian officers have come to Djerba and are proceeding overland toward Tripoli on a reconnoitering expedition, as the Arabs are expected to offer stubborn resistance to the occupation of the vilayet.

Mytilen Reported Occupied.

LONDON, Oct. 4.—A news agency dispatch from Vienna says it is reported from Constantinople that an Italian squadron has bombarded and occupied Mytilen, capital of the island of Lesbos in the Grecian archipelago, belonging to Turkey.

CONSTANTINOPLE, Oct. 4.—Political differences within the capital are multiplying, and it seems impossible to form a cabinet. Members of the committee of union and progress are unwilling to take office, as they do not wish to assume responsibility for recent events, while the elder statesmen refuse to undertake the task of government unless the committee dissolves.

A deadlock practically has been reached and the only solution is held to be the dissolution of the committee and ending of the war on the best terms obtainable.

## WOMEN FOR GOOD ROADS

DENVER, Oct. 4.—Indorsement of the Lincoln transcontinental highway and the proposition to initiate an eight-hour law for women, modeled after the Oregon law, were features of today's opening session of the Colorado State Federation of Women's clubs. The delegates were welcomed to Denver by Mrs. Dewey C. Bailey, president of the local club, and responses were made by Mrs. Milo J. Evans and Mrs. Helen M. Wixson, state superintendent of public instruction.

The convention was addressed by George H. Glover of the Agricultural college, faculty on the topic, "As a Man Eats, So He He." Dr. Glover discussed pure and impure foods and remedies for bettering faulty conditions in obtaining food supplies.

The delegates took up the problem of restricting the state with a view to facilitating federation work.

## PROTESTS ACCEPTANCE OF IRRIGATION WORK

DENVER, Oct. 4.—Harry B. Sims has applied to the district court in Weld county for an injunction restraining the Henrylyn Irrigation district, through its directors, from accepting the work performed for the district by the Kenefick Construction company and paying to the latter \$1,375,000 worth of the district bonds as last payment on the contract for constructing the system at a cost of \$3,480,000.

Arthur Day, receiver for the Denver Reservoir Irrigation company has applied to Judge George W. Allen in the Denver district court for a temporary injunction restraining Sims from prosecuting his case in the Weld county court.

The will of Margaret A. Weller, said to have been the first woman in America to use a typewriter, was filed in the probate court. The document, which contains more than 1,000 words, was written in long hand by the woman and contains many technical legal phrases. She, like her husband, was a court stenographer and resided at 3732 Windsor place—St. Louis Globe-Democrat.

Until a short time ago, scarcely one person in a thousand had ever tasted a really good soda cracker as it came fresh and crisp from the oven.

Now every man, woman and child in these United States can know and enjoy the crisp goodness of fresh baked soda crackers without going to the baker's oven.

Unceda Biscuit bring the bakery to you.

Millions of people know these perfect Soda Crackers in their original goodness. More millions will enjoy them daily when once they know how good they are.

A food to live on. Stamina for workers. Strength for the delicate. Bone and flesh for little folks.

It will cost you just 5 cents to try Unceda Biscuit. Never sold in bulk, always in the moisture proof package.

NATIONAL BISCUIT COMPANY

## TOO MANY APPLICATIONS FOR DIVORCE IN K. C.

KANSAS CITY, Oct. 4.—So numerous have become applications for divorces at each session of the circuit court in this county that the judges of the court, sitting en banc today decided some action must be taken to stop the rush. Several judges favor having the board of public welfare employ an attorney or attorneys to investigate each suit as it is filed.

## GRIFFITH TO WASHINGTON TO ARGUE IN WATER SUIT

DENVER, Oct. 4.—Attorney General Ben Griffith will leave tomorrow for Washington to argue Colorado's case in the Wyoming-Colorado water suit before the supreme court. The right of one state to use water within its border is involved. Griffith will ask the supreme court for additional time to collect more statistical evidence.

## LYMAN UNDER \$25,000 BONDS

KLAMATH FALLS, Ore., Oct. 4.—Dr. J. Grant Lyman, the Los Angeles promoter, who is wanted in that city on a charge of fraud in connection with the Panama Development company, and who escaped from an Oakland hospital while under arrest, was held in \$25,000 bonds today to appear before the federal court in Portland, by United States Commissioner R. M. Richardson.

## BABY PLAYS WITH MATCHES AND IS BURNED TO DEATH

DENVER, Oct. 4.—Adolph Ruffing, the 19-months-old son of Bernard Ruffin, an employee at the Denver and Rio Grande shops, was fatally burned today when he set fire to himself with matches. The baby's mother left him for a few moments while she went to a grocery a few blocks away.

**SHERMAN TRUST LAW BERATED BY PERKINS**

Accuses Democrats and Republicans of Bad Faith in Their Campaign Pledges

DETROIT, Mich., Oct. 4.—Speaking today before the Detroit board of commerce to the topic, "It is the Function of the Law to Define and Punish Wrong Doing and Not to Throttle Business," George W. Perkins of New York said that the people had voted in favor of amending the Sherman antitrust law. The voters, he said, had approved a plank of the Republican national platform in 1908.

This plank read:

"The Republican party passed the Sherman antitrust law over Democratic opposition and enforced it after Democratic dereliction. It has been a wholesome instrument for good in the hands of a wise and fearless administration. But experience has shown that its effectiveness can be strengthened and its real objects better attained by such amendments as will give to the federal government greater supervision and control over and secure greater publicity in the management of that class of corporations engaged in interstate commerce having power and opportunity to effect monopolies."

Desires Clearly Indicated.

Mr. Perkins said there could be no mistaking the language used. The Republican party had expressed itself in favor of amending the Sherman act; it clearly indicated that there existed companies having power and opportunity to effect monopolies; and also clearly indicated the lines along which the law should be amended.

"The Democratic party," he continued, "at the same time in the trust plank of its platform, among other things, declared for a policy that would prohibit the control by a manufacturing or trading corporation engaged in interstate commerce of more than 50 per cent of the total amount of any product consumed in the United States."

"With these platforms, the respective parties went before the people of this country in a vigorous campaign. Each party attacked the other's platform and the subject was debated pro and con all over the land. One is safely within bounds in saying that the most effective speaker in the Republican cause in that campaign was Governor Hughes, and equally within bounds in saying that the most effective speech of the campaign was his reply to Bryan, delivered at Youngstown, O., on September 5, 1908. In that speech, Governor Hughes analyzed the platforms of the respective parties in no uncertain language."

What the People Wanted.

Mr. Perkins quoted extensively from Mr. Hughes' speech and said:

"With such platforms and after such a campaign, the people voted on the issues submitted and by a plurality of over a million and a quarter votes returned the Republican party in both the legislative and executive branches."

"In place of providing the suitable publicity and supervision for which the Republican party pronounced, for which Governor Hughes' speech so ably argued and which the people of this country indicated, absolutely nothing at all was done. And we now witness the spectacle of the Republican party not only failing to carry out the trust plank in its own platform, but actually vigorously carrying out the trust plank of the Democratic platform, which it so strenuously attacked and which the American people repudiated."

"The only vestige of keeping faith with the people on anything involved in this question and as discussed in the campaign is found in the supreme court's recent trust decisions, wherein the 'rule of reason' is applied and in connection with significant facts are the following closing sentences from the Youngstown speech of Governor Hughes, for the last year a member of the supreme court:

"But in our progress we must seek to avoid false steps. Ours must be the rule of reason, clear-eyed, calm, pa-

ident and steadfast; defeating the conspiracies of intrigue and escaping the pitfalls of folly. Supreme must be the sense of justice, with its recognition of our mutual dependence."

"The congress which adopted this 'do nothing' policy, which failed to carry out these as well as other instructions received from the people in the last national election, was repudiated by the people at our election of a year ago, and now chaotic conditions exist in the corporate business world which mingle the innocent and the guilty in a common condemnation."

Public Unchanged.

"There is nothing to indicate that the people have changed their ideas in this respect. On the contrary, the approval, expressed by all classes of people in all sections of the country of the supreme court's adoption of Governor Hughes' policy of the 'rule of reason' is added proof that the people of this country look to our statesmen for a constructive national policy in the matter of business."

"Senator Cummins was reported by the newspapers as having said a few days ago:

"Personally, I believe the antitrust law should be amended or supplemented. The situation is intolerable. The extent of lawful restraint cannot be known by a business man until he is prosecuted and his case reaches the court. He does not and cannot know as the proceeds with his business whether he is a good citizen or a criminal."

"That is precisely the situation. It seems incredible that in solving our industrial problems we cannot follow some of the precedents that we ourselves have established in solving other problems."

"Attempt to sweep the country back into the old era of a vigorous competition which would be the direct consequence of a vigorous enforcement of the Sherman law and that will return the evils of deceit and fraud in business, violent fluctuations in prices, the deliberate striking to the wall of weak concerns and the eventual creation of monopolies by survivors."

Mr. Perkins suggested that the government appoint a commission to investigate the status of trusts and to recommend just what would be proper to prevent immoral dealing by them before more drastic action for their dissolution were undertaken. He also suggested that large business combinations should give to the federal government all facts concerning their capital and business, so that, without government ownership there would be

**DENVER POLICEMEN BADLY BEATEN BY A CHAUFFEUR**

DENVER, Oct. 4.—Wagon Sergeant William H. Patterson and Chauffeur A. Coltrin of the auto patrol were assaulted and badly beaten by E. C. Woerse, a chauffeur, in front of the city hall at 3 o'clock this morning. Both required the services of a police surgeon.

Woerse had gone to the city jail to obtain the release of Theodore Reese, a bartender, who had been arrested on a disturbance charge. He met Coltrin in front of the city jail. The men became involved in an argument about the merits of the police autos.

Coltrin ordered Woerse from the police garage and a struggle followed. Patterson was attracted by Coltrin's calls for help and rushed from the wagon room. As he reached the sidewalk Coltrin turned upon him and dealt him a terrific blow on the head. Patterson sank helpless to the sidewalk while Woerse made his escape.

The department of literature will have charge of the meeting of the Frances Willard W. C. T. U. this afternoon at the home of Mrs. Addie Cooper, 310 Beacon street, Roswell. The children of the L. T. L. and White Ribbon brigade will take part in the program.

All members of Pikes Peak commandery No. 6, Knights Templar, are asked to attend the stated convocation at 8 o'clock tonight.

Pikes Peak chapter of the American Woman's league will meet this evening at 7:30 o'clock with Miss Pearl B. McMillan, 609 East Platte avenue.

Section One of the First Methodist church will give a singing bee for Bethel hospital at the home of Mrs. Vermillion, 14 South Corona street, this afternoon at 2:30 o'clock.

Section Two of the First Methodist church will have a meeting with Mrs. E. C. Little, 524 East Bijou street, this afternoon at 3 o'clock.

The Washington Improvement league will hold its first meeting of the year at the school building this afternoon at 3:15 o'clock.

The Woman's Missionary society of the Boulder Street Presbyterian church will be entertained today at 4 o'clock at the home of Mrs. R. B. Liles, 11 East Del Norte street. Mrs. Mary Cobb Worley, for years a missionary in Japan, will be present and will discuss the work of missionaries in foreign countries. A talk on Korea is being planned. Musical numbers will be a feature. All members and friends of the society are invited.

The Sunday school club will meet with Mrs. Willard S. Nichols, 705 North Nevada avenue, tomorrow afternoon at 3 o'clock.

## CRITICS PUT AMATO AT THE TOP NOTCH

Considered Superior Even to Caruso in "Germania"  
Will Sing in This City

There are few singers within hailing distance of the great tenor Caruso, these musical days, but one man, Pasquale Amato, has been accorded newspaper praise surpassing that given the Italian tenor. Amato will sing here in the Colorado Springs Musical club's course, and the opinion of the New York press on his performance of Carlo Worms in the Franchetti opera at the Metropolitan Opera house is interesting.

"The performance," said the New York Times, "like last year's, was an excellent one, even brilliant, into which Mr. Toscanini put much spirit and energy. Mr. Amato and Mme Destinn did the best singing as Worms and Ricke among those who took the leading parts."

"As Carlo Worms," said the Sun, "Mr. Amato was admirable. His noble voice was never heard to better advantage. The style of the music suits Mr. Amato perfectly and he is at his best in this part."

"The honor of the performance," stated the American, "a very fine one, were divided between Caruso (Loewe), Amato (Worms), Toscanini and his admirable musicians."

H. E. Krehbiel, writing in the Tribune, stated, "Signor Caruso was compelled to share the honors of the evening with Signor Amato, who presents far and away the most convincing embodiment of a real character in the drama, and who sings his music thrice admirably."

"To write singable music is the supreme gift of the Italians," says the Telegraph, "and there are many moments in the score of 'Germania' which give to such abundant and delicious vocalists as M. Caruso and M. Amato an almost redundant scope to display their extraordinary and overwhelming gifts."

The Press stated, "Pasquale Amato, too, in the role of Carlo Worms, has every chance to give expression to his fine baritone voice, and his dramatic powers alone, and with his great tenor companion."

The World, summing up the fine performance of "Germania," said: "Amato as Worms was the third of the story around which the interest of the story centers. He both sang and acted with all his wonted sonority and grasp of character and situation."

Such tribute is sufficient to indicate the caliber of Pasquale Amato. His is a wonderful voice and his art is no less remarkable. For the concert he is to give here he has prepared a special program.

## INSURANCE MEN IN CITY

Colorado Force of the Connecticut Mutual Life Insurance Company Holds Sessions at Acacia.

The Colorado force of the Connecticut Mutual Life Insurance company began a two days' session at the Acacia hotel ballroom yesterday. This company, which is the seventh oldest in the country, has been operating in Colorado for 15 months. Walter Manning is the Colorado Springs representative, and among the high officials here are W. W. Winne of Denver, Colorado agent; Griffin M. Lovelace of Hartford, superintendent of agencies; Arthur C. Liebert of Hartford, agency correspondent, and Elliott C. Miller of Des Moines, agency supervisor, in charge of the district west of the Mississippi river.

At the meeting yesterday C. T. Fertig of Colorado Springs welcomed the insurance men, and talks were given by Dr. C. F. Gardner, also of this city, examining physician, and H. O. Smith of Denver and C. H. Arnold of Fort Morgan, district managers.

## ASSESSED VALUATION OF SPRINGS IS \$12,334,430

County Assessor Perkins made a report to the city council at yesterday's meeting, showing that the assessed valuation of Colorado Springs amounts to \$12,334,430. The assessed valuation was \$12,130,400 a year ago, showing an increase of \$204,030 for the year.

An ordinance apportioning the cost of the storm sewer in improvement district No. 1 was introduced by Commissioner Lawton and ordered sent to the printers. The total cost of the sewer is \$37,816.34.

A contract was made in which the city is given permission to lay a water pipe under the right-of-way crossing of the Denver & Rio Grande railroad at West Fountain street.

The city paid out \$59 during September for ambulance calls.

## Wants Double Original Space at Dry Congress

A telegram came yesterday from Benjamin Hennessy, secretary of the Oklahoma agricultural board at Guthrie, asking that Oklahoma's space for a state exhibit at the International Dry Farming congress be doubled. They want 20 by 100 lineal feet, or 2,000 square feet. They had been assigned about half of that amount. It is evident that Oklahoma is going to make a big display from its six schools and 70 county stations. All the space had been assigned, but arrangements will be made some way to accommodate them.

## PAYS DIVIDEND OCTOBER 25

The Vindicator Consolidated Gold Mining company has just declared its fifty-third dividend, payable October 25, to stockholders of record October 15. The disbursement, which is at the rate of 8 cents a share, amounts to \$13,000.

## PRESIDENT TO BE HERE AT MEETING EXECUTIVE COMMITTEE OF CONGRESS

C. R. Root of Denver, head of the Barteldes Seed company and chairman of the board of governors of the International Dry Farming congress, was in the city yesterday and spent some time at headquarters. Mr. Root expressed himself well pleased with the way things are going with the congress and compliments the local committees. He is anticipating a large attendance.

Mr. Root's committee is the controlling body of the congress. Mr. Root has called a meeting of the executive committee for Saturday evening, October 14, two days before the opening of the congress. This meeting will be held at a dinner at the Antlers hotel, and Dr. Worst, the president will attend. The executive committee and its board of governors are as follows:

Board of Governors: C. R. Root, Hon. W. R. Motherwell, Prof. J. D. Tinsley, Prof. Lewis A. Merrill, Mr. Anders L. Mordt, John Lennox.

Executive Committee: C. R. Root, chairman, Denver, G. W. Shaw, technical agriculturist, University of California, Berkeley, Cal., John S. Cole, bureau of plant industry, Denver; W. H. Philbrick, American Falls, Idaho; E. D. Wheeler, Wakeeney, Kan.; D. E. Willard, St. Paul, Minn.; I. D. O'Donnell, Billings, Mont.; W. P. Snyder, superintendent experiment station, North Platte, Neb.; J. D. Tinsley, Albuquerque, N. M.; E. S. Delancey, Valley City, N. D.; Liberty H. Bailey, director of agriculture, Cornell university, Ithaca, N. Y.; Edwin S. Bronson, Defiance, O.; Anders L. Mordt, Guyman, Okla.; Tillman Draper, Madras, Ore.; G. R. Malone, Draper, S. D.; G. A. Martin, editor El Paso Herald, El Paso, Tex.; J. A. Merrill, Agronomist in charge of arid farms, Salt Lake City, Utah; R. W. Thatcher, director, state agricultural college, Pullman, Wash.; Dr. V. T. Cooke, dry farming expert, Cheyenne, Wyo.; Prof. C. S. Knight, agronomist agricultural college, Reno, Nev.; R. N. Fredericks, president Prescott National bank, Prescott, Ariz.; F. R. Crumpton, mayor, Superior, Wis.

Each day during the congress the members of the executive committee will meet at luncheon at noon to take care of the business that may arise. One thing decided yesterday between Mr. Root and Secretary Burns was that there will be no general program made up and printed this year. Instead the congress will issue a small newspaper each morning containing the programs of the day and announcements that the congress may care to make. These will be in the hands of the delegates at the opening hour.

## MUST BE PAID BY NOON

Otherwise Pullman Reservations Will Be Canceled—Rio Grande Adds Through Sleepers to Coast.

The Pullman company has issued a new order to the railroad companies which carry its cars, to the effect that all berths reserved for afternoon and evening trains must be paid for by 12 o'clock, noon, before the departure of the train. If not paid for according to the new rule, reservations will be canceled.

The Denver & Rio Grande has facilitated its service between Denver and the Pacific coast by adding through sleepers to all its trains.

## Commerce Body Invited to Panpacific Congress at Honolulu Next Year

The Colorado Springs Chamber of Commerce has received an invitation to participate in the second session of the Panamerican congress, to be held in the rooms of the chamber of commerce, at Honolulu, Hawaii, February 19-24, 1912. It is the purpose of this congress to stand in the same relation to the countries bordering on the Pacific ocean as does the Pan-American union to the republics of North and South America. It will consider subjects affecting the travel and the commerce of the Pacific ocean, and it is because of the fact that considerable attention is to be given in the program to a discussion of methods to increase tourist travel that the local organization has been invited to send delegates.

## Stops a Deep-Seated Cough in a Hurry

A Family Supply of Unequalled Cough Remedy for 50¢—Money Returned if It Fails.

Cough medicines, as a rule, contain a large proportion of plain sugar, a good ingredient, but one that anyone can make. A pint of granulated sugar, with 1/4 pint of warm water, stirred for 3 minutes, gives you as good a cough remedy as any for use. A 50-cent bottle of Pinax, mixed in a pint bottle with home-made sugar syrup, gives you a full pint of really better cough syrup than you could buy ready-mixed for \$2.50. There's a clear saving of \$2.00. Full directions in package.

## HANDSOME BUNGALOW IN PROSPECT LAKE ADDITION

A bungalow will be the first home constructed in Prospect Lake addition, Colorado Springs' latest development. Work on the house commenced the first of the week. The bungalow, California style, will cost between \$3,000 and \$4,000, and a garage will be built in addition.

Many other property owners in Prospect Lake addition are making plans for new homes to be built next spring. Five dwellings are planned for immediate construction.

**\$1.00 A MONTH**  
Sponges and presses 4 suits. Hunter, 129 N. Tejon Phone 1364.

## SELLS MINING INTERESTS

Miss M. W. Bailey of this city has sold to W. Small, New Haven, Conn., her interests in the Cripple Creek mining district. Because of the efficiency of the cyanide process, low grade ore is being mined from the property in paying quantities.

## WANT TO CARRY GUNS

Numerous requests have been made of late to Mayor Avery by men who want authority to carry guns. Mayor Avery has granted permits for the employees of the Wells-Fargo Express company, three physicians and dentists, several merchants and two drug store proprietors.

## Rosy as a Girl

Summit, N. C.—In a letter received from this place, Mr. J. W. Church, the notary public, says: "My wife had been ailing for nearly 12 years, from female ailments, and at times, was unable to leave the house. She suffered agony with her side and back. We tried physicians for years, without relief. After these treatments all failed, she took Cardui, and gained in weight at once. Now she is red and rosy as a school girl." Cardui, a tonic for women, has brought remarkable results. It relieves pain and misery and is the ideal tonic for young and old. Try it. At druggists.

## W. J. FINK WILL HAVE A 40-PIECE BAND IN 1913

Colorado Springs musicians, under the direction of William J. Fink, will furnish the music at the triennial convale, Knights Templar in Denver, 1913, for Duquesne commandery No. 72, of Pittsburgh, Pa. Mr. Fink signed a contract with S. W. Jeffers of Pittsburgh, yesterday, which calls for a band of 40 pieces.

All of the musicians will be selected from this city. Mr. Fink and his band will go to Pittsburgh at the time of the convale and will accompany the commandery to Denver. The band will be in full military dress, and its parade in Denver will be a feature of the grand march.

## S. J. Bush on Executive Committee of Greeters

At the annual meeting of the Greeters of Colorado a branch of the national organization of hotel clerks, S. J. Bush, chief clerk at the Acacia hotel in this city, was made a member of the executive committee. The meeting was held in Denver Tuesday night. Other officers elected by the greeters are: J. J. Herman, president; Charles Genert, first vice president; C. T. Newton, second vice president; V. S. Warner, secretary; H. E. Lathrop, treasurer; L. A. Fuller, M. O. Jones, M. I. Madden, E. C. Bennett, C. W. McClure and J. M. Collins, executive committee.

## Personal Mention

A. M. Gloyd of Kansas City, Mo., who has made his home during the summer on North Cascade avenue, has removed to the Acacia hotel.

Col. J. C. Gibbons, Akron, O., returned to his home yesterday after an extended visit with his daughter, Mrs. E. C. F. Whitaker.

Mr. and Mrs. W. D. Waltman are guests for a few days at the Acacia. Mr. Waltman has recently become resident engineer for the Costilla Estates.

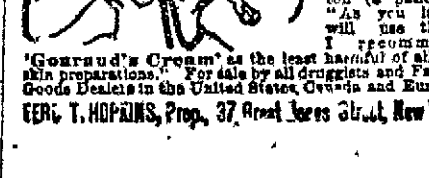

Development company in the San Luis valley and is located at Acacia.

Word has been received that M. B. Colt, who has been in Long Beach, Cal., for some time on account of his health, is improving rapidly.

## A Skin of Beauty is a Joy Forever.

**DR. T. Felix Gouraud's Oriental Cream or Magical Beautifier.**

Removes Tan, Pimples, Freckles, and every blemish on beauty, and defies decay. It has stood the test of 45 years, and is so famous we have it to be sure it is properly made. Accept no counterfeit. It is the only one that will give you a skin of beauty. As you ladies will use them, I recommend 'Gouraud's Cream' as the best beauty of all the skin preparations. Try it by all druggists and Foreign Goods Dealers in the United States, Canada and Europe. T. F. HOPKINS, Prop., 37 West 14th St., New York.

**Dern's Coffee**  
Freshly Roasted Coffee

## Buy Your Coffee Here

Because of its freshness, its purity, its strength. We have been many years reaching the goal of our ambition, 'A Coffee—by every test—that's better than all others.' We say 'better than all others' and are ready to prove it with the very first pound of our famous Dry-Coke Roast Coffee. It's freshly roasted. It makes ten more cups to the pound. Phone us a test order.

## MINING INVESTMENTS

ONE of the many laudable undertakings of the American Mining Congress is that of protecting the investor, particularly the small investor, from fraudulent mining promotions. To do this completely and effectively will be difficult. As long as people have the desire to get something for nothing they will listen to the unscrupulous promoter who promises impossibly large dividends and hand him money against the whisperings of their better judgment. When the promised results fail to materialize they will say, "Oh, well, mining is all a gamble anyhow!"

Mining as conducted by the sort of people mentioned above is not a gamble; it is a sure thing for the promoter. The disreputable brokers and salesmen of fake stocks get commissions of from 25 to 75 per cent of the money they collect from their sales and very little of the balance is ever expended in actual mining. Drastic legislation is needed in connection with the flotation of mining companies, (and also in the flotation of other industrial companies), to compel the promoters to publish full reports of engineers and to state the amount paid for the property and what is to become of the money paid for the stock. They should also be compelled to publish monthly and annual reports to keep the shareholders fully informed regarding the operation and development of the property. This is the procedure of nearly all reputable mining companies today.

The general public does not differentiate between the two classes of mining properties, prospects and mines. To it as soon as the prospector sets up his location stakes the property is a mine, which is very far from being the case. The exact stage of the development at which it ceases to be a prospect and becomes a mine is difficult to define. In general it may be stated that when there is sufficient ore developed to enable the engineer to make a calculation of its net value and to form an opinion of the probability of the continuation of the ore body beyond the ore actually blocked out so as to assure the return of the capital invested in the necessary mining and reduction plants, the property may be called a mine. When a property reaches this stage it can be sold for a much larger price than when it is an unproved prospect and the investor is reasonably sure of a fair return on his money.

If, on the other hand, he invests in a prospect he is running a greater risk of losing his entire investment and at the same time has a chance of getting very much larger returns. A fact that should be borne in mind by the casual investor is that only one prospect out of five or six pronounced by experts to be worthy of exploration ever makes a mine, and the expert is lucky if he can find one prospect out of a hundred that is worth spending any money on.

**ADVICE OF AN EXPERT.** John Hays Hammond, than whom there is no better known or successful mining engineer, in an address delivered before the Finance Forum of New York a couple of years ago propounded the following advice to mining investors:

- (1) Don't invest your money in a mining property simply because of the fact that a friend of yours (even if he be a blond relation) became rich through a fortunate investment made in mining stocks.
- (2) Don't, on the other hand, be deterred from investing in a mining property because another less fortunate friend became bankrupt through some other failing investment.
- (3) Don't allow any insinuating, slick, dishonest—not to apply the short and ugly word—promoter, or so-called stock broker, to overcome your natural modesty and convince you that because you have been successful in your own line of business you yourself are competent to determine the value of a mine. Many men of business ability in their own lines have made trips of self-deception to see for themselves that which existed only in their imagination. "Shoemaker, stick to your last!"
- (4) Don't be influenced by your desire to purchase mining stock by the rich specimens that the mines have produced, even though you yourself have seen such specimens in the mine. Specimen rock of this kind is no criterion of the average grade of the ore upon which the success of the mine depends. I remember the story of old John Gashweller, a well-known mining capitalist of his day, when he was asked his opinion of the value of a property which very rich specimens of ore were shown him. "You might as well show me the hair from the tail of a horse," said Gashweller.

"and then ask me how fast the horse can trot."

(5) Don't buy stock in a mine because it has produced a profit of millions of dollars in the past, for the mine is obviously so much poorer for the millions already attracted.

(6) Don't buy stock in a mine solely because it is in a far off country, even though distance lends enchantment to the view.

(7) Don't buy stock in a mining company simply because of the fact that it adds another mine of great value. That may be interesting, but it is not conclusive as to the value of the mine in question.

(8) Above all, don't buy shares in a mine unless you have the unqualified favorable report made by a mining expert of integrity, ability and experience, and one who has made a success in investment of money for his clients. An engineer may have the best obtainable technical training, supplemented by considerable practical experience and yet lack certain qualifications in his professional make-up that determine success or failure.

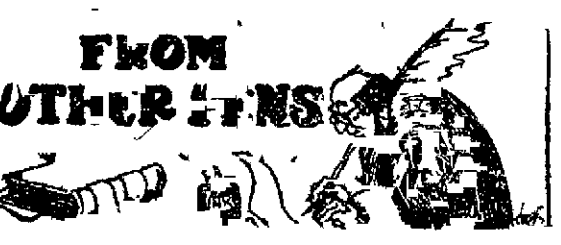

(9) Don't buy stock in a mine unless you are sure that the board of directors is honest and competent, because good management is just as essential to success in mining as it is in other enterprises. In the early days of mining in the Transvaal, the ignorance of the boards of directors of mining companies was indeed lamentable, though sometimes comical. A well authenticated story is told of a certain board of directors in London, to whom the manager had cabled telling them the necessity of having another mining shaft upon the property, as the old one was out of repair and dangerous. They cabled in reply to the manager to endeavor to find a second-hand one.

(10) In short, don't abandon all your good common sense just because the investment happens to be one in mining and not in some other class of industrial securities.

Further along in the same address he said:

While in these remarks I have held out to you the red flag of danger, nevertheless when the track is clear and in good condition I have great faith in the safety of mining investments. Indeed, speaking with a proper appreciation of the importance of the statement, I have no hesitancy in expressing the opinion that, conducted upon the right basis when extended over many operations, there is no business with which I am familiar, that offers such attractive and at the same time such safe investments as the mining industry.

All this probably will seem trite and self evident to those familiar with mining, but it is those not familiar with it who should consider it carefully when approached by someone with a prospectus of a "gilt-edged" mining investment.

**WHY NOT?**  
From the Philadelphia Inquirer  
Why is it that when a man buys a derby hat he is never allowed anything on his old straw? And, incidentally, what becomes of all the old straws?

**NOT A GOLD BRICK**  
From Washington Star  
At all events these discussions of Alaska's resources have served to do away with the snipe loop once so general that Russia sold Uncle Sam a gold brick. Perhaps the day will come when the Philippines, instead of being contemplated with misgivings will be the subject of the conservationists most cherishing care.

**BREVITY**  
From Collier's  
Robert Louis Stevenson was a close student of style and has left more than one interesting discussion of the technique of writing. In a letter to R. M. Stevenson, dated October, 1893, he says:  
"There is but one art—to omit! Oh, if I knew how to omit, I would ask no other knowledge. A man who knew how to omit would make an 'Hed' of a daily paper."  
To men engaged in editorial writing (which in America is the art of making ideas effective before a vast audience), and to young men and women in college who are planning to enter journalism, we recommend that the above few words of Stevenson's be committed to memory and put into practice.

**THE PUBLIC LANDS CONVENTION.**  
To the Editor of The Gazette:  
It would be most unfortunate if your readers here and elsewhere in the west were misled by accounts published in the Denver papers of the recent proceedings of the Public Lands convention in Denver.

First, let me say that the convention was initiated by a few opponents of both conservation and national control of the public domain.

Second, the convention was very far from being representative. Some of the states and territories were not represented at all, many others by only two or three delegates. Not more than ten delegates, all told, were present, and the majority of these were from Colorado. The program was arranged carefully and exclusively for the purpose of opposing—largely in a spirit of ignorant and unreasoning prejudice—the policy of conservation, under national control, of the public domain and the national resources included in it. Only a single exception to this statement can be made. In the case of the address by Governor Carey of Wyoming with this one exception no exponent of conservation, much less of national control, appeared on the program.

The evening before the opening of the convention the Denver delegation held a caucus at which ex-Senator Teller, the most bitter foe of conservation, was selected as the representative from Colorado on the committee on resolutions. This was done before the delegates from El Paso county and from the northern part of the state where the policy of conservation is strongly supported, could be present.

The rules of order of the convention provided that open discussion should be allowed after every address. No opportunity, however, was allowed to occur under this rule. Only at the last session but one of the convention was there any free discussion and that only under a five-minute rule. The most important part of the convention, I. e., the report of the committee on resolutions, was held over until Monday. Many of the Colorado delegates, other than the Denver contingent, were obliged to return home Saturday and it was impossible to collect them again in Denver on Monday. This very materially weakened the voting in favor of conservation.

At the session on Monday afternoon the committee on resolutions presented its strictly partisan report. Thereupon the El Paso county delegation presented, as a substitute a set of resolutions moderate in tone, supporting the policy of national control of the public domain and of the natural resources, including the forests and the water power sites thereon, but urging the removal of all burdensome restrictions inimical to prospecting, mining and the

legitimate development of water power. For three long days the delegates had listened to speech after speech directed with the utmost vehemence and skill against the whole policy of national control. At the close the supporters of this policy were permitted to present their arguments in brief and necessarily inadequate talks of five minutes each. The time occupied in reading these resolutions (four minutes) was actually taken out of the five minutes allotted to the presenter of the resolutions for their defense. It is true that the convention freely allowed extensions of time, but even one hour would have been a brief period in which to defend a policy upon the defeat of which more than three days had been expended. It should be added that the majority resolutions were never presented to the convention in their final form and not one in ten of the delegates knew anything about them except their general purport. Needless to say, the substitute resolutions were overwhelmingly defeated.

At the close of the convention a movement was initiated having as its object a permanent organization to work against the cause of conservation. No such organization can do much harm against a policy which has commended itself to the people of the United States as a whole. But it will attempt to talk so loudly and persistently that the uninformed people may be led to mistake its voice for that of an important body representing something more than a disgruntled faction. It is well that the people of the west should be informed as to the character and aims of the recent convention, and that they be warned against an organization which seeks to divert into the hands of a few of the people properties and resources which, as the president stated yesterday, belong to all the people.

Colorado Springs, Oct. 4.

I've always sought the silver lining whenever a cloud appeared, no foolish tears of vain repining have trickled down my beard. When I encounter grief and sorrow, I say, "It cuts no grass, for things will be better tomorrow."

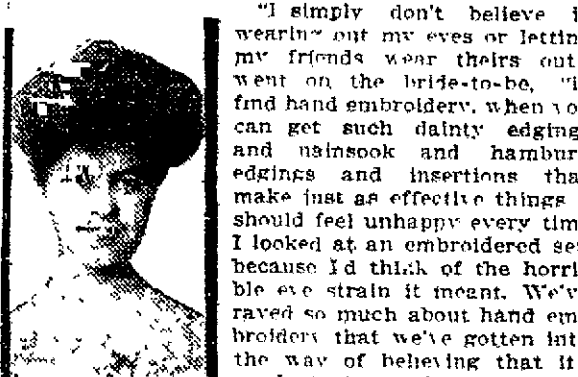

**THE BRIGHT SIDE**  
diverse times when people saw me wear grins and sing a song, they stopped me to rebuke and fawn me, and said, "Your head's on wrong to go around and sing and chortle when woes are thick as rats, shows that you're dip py, foolish mortal!" Your belly's full of bats!

And still, when I saw sorrows thicken, my hopeful song was sung, and now that I am sorely stricken in years I still am young. My heart does not with age grow colder—'twas never steeped in tears; and I know men who seem much older, who've lived but half my years. Whenever I see a grouch I strike it and knock its features in, the more I like the more I like it—because I learned to grin. This habit kept my life a-shining, and when I come to die I still shall seek the silver lining, and find it, by and by.

**THE DAILY CHIT-CHAT**  
—BY—  
RUTH CAMERON  
When a young girl announced her engagement the other day, her chum, who is an exquisite embroiderer, offered to make her a full set of embroidered underwear.  
With astonishing fortitude, the bride-to-be actually refused this offer.  
"It's perfectly lovely of you," she declared, "but there isn't going to be a single hand-embroidered piece of underwear in my trousseau."  
Her friends were frankly astounded at this heresy.  
She is, herself, a girl who embroiders beautifully and everyone had prophesied that her trousseau would outdo anything before seen in the neighborhood in exquisite hand work.

"I simply don't believe in wearing out my eyes or letting my friends wear theirs out," went on the bride-to-be, "in finding hand embroidery, when you can get such dainty edgings and nainsook and Hamburg edgings and insertions that make just as effective things. I should feel unhappy every time I looked at an embroidered set, because I'd think of the horrible eye strain it meant. We've raved so much about hand embroidery that we've gotten into the way of believing that it's much better than anything else. But it is really—I've been thinking a lot about it lately, and I've decided that it's the amount of work involved that we're really after, and not the actual prettiness. Why, I heard two or three of the girls say that they thought that lace and nainsook set in Rose's trousseau was just about twice as pretty as the one she nearly embroidered her eyes out over. We all made a fuss over the other, and she called it her best, because it represented so much work, not because it was so pretty."

Don't you think the bride-to-be's point of view on this matter is interesting?

I do.  
And I think it is a point of view that can be used not only in trousseaus, but on the clothes question in general.

I believe that if we would honestly try to make prettiness effectiveness and durability the criterion of our civilization instead of the expense and the amount of work involved, we would simplify the whole clothes question.  
I was much amused the other day, when I asked another young girl who was choosing me her trousseau, which herself liked the best, and she answered indignantly, "I'm ashamed to tell you. He's perfectly ridiculous about it. He insists he likes THIS the best." "THIS" was a simple, inexpensive blueingham morning gown with a dainty sailor collar of Hamburg. The gown cost perhaps two dollars for the material and represents very little work, but it was made of fine, simple lines—it was exquisitely fresh and dainty and it was of a style and color which became her perfectly.

Judged by standards of expense and effort, it was a decidedly inferior thing.  
But the man did not judge that way. He judged by the standard of actual effectiveness and beauty, by the actual pleasure he received from looking at the gown. The little blue morning gown was undoubtedly more genuinely effective than the elaborate steel color crepe morning gown, or the wonderfully embroidered green and black marquisette, and he was wise enough to know it.

I wish more women could judge clothes by this standard.

And do you know, I think a great many men—especially the worth while ones—do.

Women do not realize this. They fret and fume and tire themselves out to win men's admiration by expensive and costly and elaborate wardrobes, while the simple and inexpensive, but becoming thing, means just as much, or vastly more to him.  
What Jane Austen said a hundred years ago is as true today as it was then, "It would be mortifying to the feelings of many ladies, could they understand how little the best of men is affected by what is costly or new in their attire, how little moved by the texture of the muslin, how unimpressible of peculiar tenderness toward the aproned, the spotted, the mull or the jackonet. Woman is fine for her own satisfaction alone."

## Examination for Assistant Forest Rangers

To Be Held This Month—What the Applicants Must Know.

Washington, D. C.—The civil service commission will hold an examination for assistant forest ranger on October 23-24, 1911. The United States department of agriculture estimates that 400 eligibles will be needed during the field season of 1912. Assistant forest rangers are paid an entrance salary of \$1,100 per annum.

The examination will be held at national forest headquarters in Alaska, Arizona, Arkansas, California, Colorado, Florida, Idaho, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming. No examination will be held in Michigan.

The law requires that, when practicable, forest rangers must be qualified citizens of the state or territory in which the national forest on which they are appointed is situated. Since the list of local eligibles must be exhausted before eligibles residing in other states can be appointed, the chance of citizens of outside states who go to the national forest states and take the examination to secure an appointment is small.

The requirements and duties of forest rangers are thus described in "The Use Book," which contains the regulations and instructions for the use of the national forests.  
"A ranger of any grade must be thoroughly sound and able-bodied, capable of enduring hardships and performing severe labor under trying conditions. He must be able to take care of himself and his horses in regions remote from settlement and supplies. He must be able to build trails and cabins, ride, pack, and deal tactfully with all classes of people. He must know something of land surveying, estimating and scaling timber, logging, land laws, mining, and the livestock business."

"On some forests the ranger must be a specialist in one or more of these lines of work. Thorough familiarity with the region in which he seeks employment, including its geography and its forest and industrial conditions, is usually demanded, although lack of this may be supplied by experience in similar regions."

"The examination of applicants is along the practical lines indicated above, and actual demonstration by performance is required. Invalids seeking light out-of-door employment need not apply. Experience not book education is sought, although ability to make simple maps and write intelligent reports upon ordinary forest business is essential."

"For duty in some parts of Arizona and New Mexico the ranger must know enough Spanish to conduct forest business with Mexicans."

## Must Own Horses.

"Where saddie horses or pack horses are necessary in the performance of their duty, rangers are required to own and maintain them. The forest service furnishes no personal or horse equipment."

"Rangers execute the work of the national forests under the direction of supervisors. Their duties include patrol to prevent fire and trespass, estimating, surveying and marking timber, the supervision of cuttings and similar work. They issue minor permits, build cabins and trails, oversee grazing business, investigate claims, report on applications and report upon and arrest for violation of forest laws and regulations."

The examination will consist of questions regarding the use of the forest, supplemented by a field test to show the applicant's fitness to do the actual work of a ranger. Education and experience will be rated on the answers to the questions on these subjects in the application form and on the applicant's use of English in the written test. Horses for the tests in riding and packing will be provided by the forest service.

The examination is under the control of the civil service commission, and not of the forest service. Information in detail regarding it, including the names of the places at which it will be held, will be sent to anyone applying to the United States civil service commission, Washington, D. C.

## WHERE THE CHICKEN GOT THE AX

The rooster in the chicken coop is crowing loud and long. And as he brails his large and small. Are joining in his song. The Leghorn and the Wyandotte. Are laying eggs in stacks. For the Chicken Trust has got it. Where the chicken got the ax.

The egg-nog and the omelette. A bright new era see. And share congratulations. With the chicken franchisee. The trust has long oppressed them. With a tax on their eggs and tax. But now the trust has got it. Where the chicken got the ax.

No wonder now the bantam cock. Throws out his wellfeited crow. His enemy at last has felt. The terrors of the law. A million wishbones cheer today. The laws they thought were lax. For the Chicken Trust has got it. Where the chicken got the ax.

## BOY SCOUTS SAVE MILLIONS IN PROPERTY STOPPING MISCHIEF

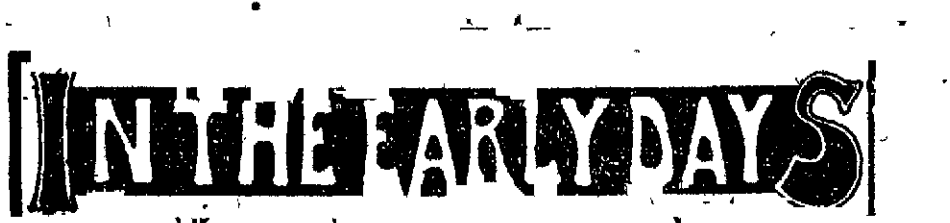

Boys Are Trained to Have Fun Doing Useful Things Instead of Engaging in Destructive Play

The leaders of the Boy Scout movement of America say that the economic value of the Boy Scout activities amounts to many millions of dollars in a year. This value lies in the prevention of malicious mischief and crime among boys growing out of the "gang" instinct and in the instruction of boys to do constructive things. Boys naturally get together in crowds, have their leaders, and plan various stunts. If the boys are extremely energetic and have any tendency towards destruction they are likely to do damage to a great amount of property.

The damage to property which boys can do was shown by the recent investigation into the police department of New York. Many police captains complain that one of the greatest difficulties with which they have to con-

## THIRTY YEARS AGO TODAY

October 5, 1881.

The Colorado College Literary society was formed with the following officers: President, F. L. Cooper, vice president, Jessie M. Rowe; secretary, treasurer, May L. Neal. The president and vice president together with George F. Owen, composed the executive committee.

A party was organized to search for D. Wilmer of Denver who had left the Cliff house, Manitou, the week before to ascend Pikes Peak. Wilmer had not been heard of since, and the fact that he suffered from heart trouble led to grave fears for his safety.

John Potter, the first postmaster of Colorado Springs, purchased what was known as the Humphrey lot, on North

## TWENTY YEARS AGO TODAY

October 5, 1891.

Pikes Peak camp No. 5, W. O. W., voted to consolidate with Colorado Springs camp.

A large bear was seen at the Roswell roundhouse and numerous other bears were reported close to the city.

The tenth annual meeting of the Colorado Christian Missionary society was held at the Christian church.

Two feet of snow was reported on Pikes Peak and the Cog road was obliged to use shovels to keep the track clear for traffic.

History has always attached much importance to the Number Seven. "Of all numbers there is one which commanded, in a higher degree, the esteem and reverence of mankind." The Gazette has taken this charmed number, and has woven into stories on a variety of subjects a Series of Sevens, beginning each Monday and continuing during the week.

## NO. 1 THE BEEFSTEAK CLUB

Most of the large cities in the United States have a set of diners, typical clubmen, who designate themselves as the Beefsteak club, and take their name from the old and even to this day prominent English club with the same title, which saw its birth in the days of good Queen Anne. It is hardly surprising that the national dish of England was laid under contribution for the name of a club, but of its origin the information is somewhat hazy.

This English club has been described with great gusto by Ned Ward, who had for it many more pleasant adjectives than he could find for the Kit-Cat club. During the reign of Queen Anne there was also a Beefsteak society in London, which owed its existence to John Rich, of Covent Garden theater, Richard Estcourt of Drury lane, and the famous scene painter Lambert.

For some unexplained reason, but probably because of its Bohemian character, the Beefsteak club quickly gained many distinguished adherents, and could number royal scions as well as plebeians in its circle. According to Henry B. Wheatley, "the room the society dined in, a little seclusion in itself, was most appropriately fitted up the doors, wainscoting and roof of old English oak, ornamented with griddons as thick as Henry VII's chapel, with the portcullis of the founder." The society's badge was a gridiron, which was engraved upon the rings, glass and the forks and spoons. At the end of the dining room was an enormous grating in the form of a gridiron, through which the fire was seen and the steaks handed from the kitchen. Over this were the appropriate lines.

"If it were done when 'tis done, then 'twas well."

It was done quickly. Saturday was from time immemorial the day of dining, and of late years the season commenced in November and ended in June. The last elected member of the fraternity was known as Boots, and no matter how high his social rank there were certain lowly duties he had to discharge until set free by another newcomer. There was another official known as the Bishop, whose duty it was to sing the grace and to read to each new member, who was brought in blindfolded, the following oath of allegiance.

"You shall attend duty, vote impartially and conform to our laws and orders obediently. You shall support our dignity, promote our welfare and at all times behave as a worthy member of this sublime society. So beef and liberty be your reward."

At one time the members of this club wore a uniform consisting of a blue coat and buff waistcoat with brass buttons impressed with the gridiron and motto "Beef and Liberty." They also wore rings bearing the same device.

The present Beefsteak club of London, less conspicuous in its ways than the sublime society, was founded about 1878. Its membership is small and consists mostly of men well known in the political, theatrical and literary worlds.

The Beefsteak owns a good deal of silver, much of which has been presented from time to time by members, and the most valuable possession is a tankard of solid gold, on which are inscribed the names of those members who took part in the Boer war.

## TOMORROW—THE WHITE'S CLUB

## SUEWAY AS THERMOMETER

From the Pittsburgh Dispatch  
Daily count of passengers in the subway furnishes almost as accurate a gauge to the temperature as the mercury itself according to an Interborough Rapid Transit statistician, who has just reported to the public service commission the underground traffic during eight days of the recent hot spell, compared with eight days of early December, last.

On July 5, last, only 550,000 people rode in subway trains, as compared with 1,000,000 on December 8. During the eight days of the hot spell the figures were 4,000,000 as compared with 7,000,000 during eight days of December.

## CRITICS PUT AMATO AT THE TOP NOTCH

Considered Superior Even to Caruso in "Germania"  
Will Sing in This City

There are few singers within hailing distance of the great tenor Caruso, these musical days, but one man, Pasquale Amato, has been accorded newspaper praise surpassing that given the Italian tenor. Amato will sing here in the Colorado Springs Musical club's course, and the opinion of the New York press on his performance of Carlo Worms in the French opera at the Metropolitan Opera house is interesting.

"The performance," said the New York Times, "like last year's, was an excellent one, even brilliant, into which Mr. Toscanini put much spirit and energy. Mr. Amato and Mme. Destinn did the best singing as Worms and Ricket among those who took the leading parts."

"As Carlo Worms," said the Sun, "Mr. Amato was admirable. His noble voice was never heard to better advantage. The style of the music suits Mr. Amato perfectly and he is at his best in this part."

"The honor of the performance," stated the American, "a very fine one, were divided between Caruso (Loewe), Amato (Worms), Toscanini and his admirable musicians."

H. E. Krehbiel, writing in the Tribune, stated, "Signor Caruso was compelled to share the honors of the evening with Signor Amato, who presents far and away the most convincing embodiment of a real character in the drama, and who sings his music thrice admirably."

"To write singable music is the supreme gift of the Italians," says the Telegraph, "and there are many moments in the score of 'Germania' which give to such abundant and delicious vocalists as M. Caruso and M. Amato an almost redundant scope to display their extraordinary and overwhelming gifts."

The Press stated "Pasquale Amato, too, in the role of Carlo Worms, has every chance to give expression to his fine baritone voice, and his dramatic powers alone, and with his great tenor companion."

The World, summing up the fine performance of "Germania," said: "Amato as Worms was the third of the trio around which the interest of the story centers. He both sang and acted with all his wonted sonority and grasp of character and situation."

Such tribute is sufficient to indicate the caliber of Pasquale Amato. His is a wonderful voice and his art is no less remarkable. For the concert he is to give here he has prepared a special program.

## INSURANCE MEN IN CITY

Colorado Force of the Connecticut Mutual Life Insurance Company Holds Sessions at Acacia.

The Colorado force of the Connecticut Mutual Life Insurance company began a two days' session at the Acacia hotel ballroom yesterday. This company, which is the seventh oldest in the country, has been operating in Colorado for 15 months. Walter Manning is the Colorado Springs representative, and among the high officials here are W. W. Winnie of Denver, Colorado agent; Griffin M. Lovelace of Hartford, superintendent of agencies; Arthur C. Liebert of Hartford, agency correspondent, and Elliott C. Miller of Des Moines, agency supervisor, in charge of the district west of the Mississippi river.

At the meeting yesterday C. T. Fertig of Colorado Springs welcomed the insurance men, and talks were given by Dr. C. F. Gardiner, also of this city, examining physician, and H. O. Smith of Denver and C. H. Arnold of Fort Morgan, district managers.

## ASSESSED VALUATION OF SPRINGS IS \$12,334,430

County Assessor Perkins made a report to the city council at yesterday's meeting, showing that the assessed valuation of Colorado Springs amounts to \$12,334,430. The assessed valuation was \$12,130,400 a year ago, showing an increase of \$204,030 for the year.

An ordinance apportioning the cost of the storm sewer in improvement district No. 1 was introduced by Commissioner Lawton and ordered sent to the printers. The total cost of the sewer is \$37,818.34.

A contract was made in which the city is given permission to lay a water pipe under the right-of-way crossing of the Denver & Rio Grande railroad at West Fountain street.

The city paid out \$89 during September for ambulance calls.

## Wants Double Original Space at Dry Congress

A telegram came yesterday from Benjamin Hennessey, secretary of the Oklahoma agricultural board at Guthrie, asking that Oklahoma's space for a state exhibit at the International Dry Farming congress be doubled. They want 20 by 100 lineal feet, or 2,000 square feet. They had been assigned about half of that amount. It is evident that Oklahoma is going to make a big display from its six schools and 70 county stations. All the space had been assigned, but arrangements will be made some way to accommodate them.

## PAYS DIVIDEND OCTOBER 25

The Vindicator Consolidated Gold Mining company has just declared its fifty-third dividend, payable October 25, to stockholders of record October 15. The disbursement, which is at the rate of 3 cents a share, amounts to \$15,000.

## PRESIDENT TO BE HERE AT MEETING EXECUTIVE COMMITTEE OF CONGRESS

C. R. Root of Denver, head of the Barteldes Seed company, and chairman of the board of governors of the International Dry Farming congress, was in the city yesterday and spent some time at headquarters. Mr. Root expressed himself well pleased with the way things are going with the congress and compliments the local committees. He is anticipating a large attendance.

Mr. Root's committee is the controlling body of the congress. Mr. Root has called a meeting of the executive committee for Saturday evening, October 14, two days before the opening of the congress. This meeting will be held at a dinner at the Antlers hotel, and Dr. Worst, the president, will attend. The executive committee and its board of governors are as follows:

Board of Governors: C. R. Root, Hon. W. R. Motherwell, Prof. J. D. Tinsley, Prof. Lewis A. Merrill, Mr. Anders L. Mordt, John Lennox.

Executive Committee: C. R. Root, chairman, Denver, G. W. Shaw, technical agriculturist, University of California, Berkeley, Cal., John S. Cole, bureau of plant industry, Denver, W. H. Philbrick, American Falls, Idaho, E. D. Wheeler, Wadena, Minn., D. E. Willard, St. Paul, Minn., I. D. O'Donnell, Billings, Mont., W. P. Snyder, superintendent experiment station, Albuquerquerque, N. M.; E. S. Delancey, Valley City, N. D.; Liberty H. Bailey, director of agriculture, Cornell university, Ithaca, N. Y.; Edwin S. Bronson, Defiance, O.; Anders L. Mordt, Guyton, Okla.; Tillman Reuter, Madras, Ore.; G. R. Malone, Draper, S. D.; G. A. Martin, editor El Paso Herald, El Paso, Tex.; L. A. Merrill, Agronomist in charge of arid farms, Salt Lake City, Utah; R. W. Thatcher, director, state agricultural college, Pullman, Wash.; Dr. V. T. Cooke, dry farming expert, Cheyenne, Wyo.; Prof. C. S. Knight, agronomist agricultural college, Reno, Nev.; R. N. Fredericks, president Prescott National bank, Prescott, Ariz.; F. R. Crumpton, mayor, Superior, Wis.

Each day during the congress the members of the executive committee will meet at luncheon at noon to take care of the business that may arise. One thing decided yesterday between Mr. Root and Secretary Burns was that there will be no general program made up and printed this year. Instead the congress will issue a small newspaper, each morning, containing the programs of the day and announcements that the congress may care to make. These will be in the hands of the delegates at the opening hour.

## MUST BE PAID BY NOON

Otherwise Pullman Reservations Will Be Canceled—Rio Grande Adds Through Sleepers to Coast.

The Pullman company has issued a new order to the railroad companies which carry its cars, to the effect that all berths reserved for afternoon and evening trains must be paid for by 12 o'clock, noon, before the departure of the train. If not paid for according to the new rule, reservations will be canceled.

The Denver & Rio Grande has facilitated its service between Denver and the Pacific coast by adding through sleepers to all its trains.

## Commerce Body Invited to Panpacific Congress at Honolulu Next Year

The Colorado Springs Chamber of Commerce has received an invitation to participate in the second session of the Panamerican congress, to be held in the rooms of the chamber of commerce, at Honolulu, Hawaii, February 19-24, 1912. It is the purpose of this congress to stand in the same relation to the countries bordering on the Pacific ocean as does the Pan-American union to the republics of North and South America. It will consider subjects affecting the travel and the commerce of the Pacific ocean, and it is because of the fact that considerable attention is to be given in the program to a discussion of methods to increase tourist travel that the local organization has been invited to send delegates.

## Stops a Deep-Seated Cough in a Hurry

A Family Supply of Unequaled Cough Remedy for 50¢—Money Returned if It Fails.

Cough medicines, as a rule, contain a large proportion of plain syrup, a good ingredient, but one that anyone can make. Pinex is a special and highly concentrated compound of imported Norway White Pine extract, and is rich in gualacal and other natural healing pine elements. Simply mix it and directed with sugar syrup or stirred honey, and it is ready for use. Used in more homes in the U. S. and Canada than any other cough remedy. Pinex has often been imitated, but never so fully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is used in each package. Your druggist has it, or will get it for you. If not, send to J. W. Co., Fort Wayne, Ind.

Sponges and presses 4 suits. Hunter, 120 N. Tejon. Phone 1364

## SELLS MINING INTERESTS

Miss M. W. Ballow of this city has sold to W. Small, New Haven, Conn., her interests in the Cripple Creek mining district. Because of the efficiency of the cyanide process, low grade ore is being mined from the property in paying quantities.

## WANT TO CARRY GUNS

Numerous requests have been made of late to Mayor Avery by men who want authority to carry guns. Mayor Avery has granted permits for the employees of the Wells-Fargo Express company, three physicians and dentists, several merchants and two drug store proprietors.

## Rosy as a Girl

Summit, N. C.—In a letter received from this place, Mr. J. W. Church, the notary public, says: "My wife had been alling for nearly 12 years, from female ailments, and at times, was unable to leave the house. She suffered agony with her side and back. We tried physicians for years, without relief. After these treatments all failed, she took Cardui, and gained in weight at once. Now she is red and rosy as a school girl." Cardui, as a tonic for women, has brought remarkable results. It relieves pain and misery and is the ideal tonic for young and old. Try it. At druggists.

## Personal Mention

A. M. Gloyd of Kansas City, Mo., who has made his home during the summer on North Cascade avenue, has removed to the Acacia hotel.

Col. I. C. Gibbons, Akron, O., returned from his home yesterday after an extended visit with his daughter, Mrs. E. C. F. Whitaker.

Mr. and Mrs. W. D. Waltman are guests for a few days at the Acacia. Mr. Waltman has recently become resident engineer for the Costilla Estates.

## W. J. FINK WILL HAVE A 40-PIECE BAND IN 1913

Colorado Springs musicians, under the direction of William J. Fink, will furnish the music at the triennial convocation, Knights Templar in Denver, 1913, for Duquesne commandery No. 72, of Pittsburgh, Pa. Mr. Fink signed a contract with H. W. Jeffers of Pittsburgh, yesterday which calls for a band of 40 pieces.

All of the musicians will be selected from this city. Mr. Fink and his band will go to Pittsburgh at the time of the convocation and will accompany the commandery to Denver. The band will be in full military dress, and its parade in Denver will be a feature of the grand march.

## S. J. Bush on Executive Committee of Greeters

At the annual meeting of the Greeters of Colorado, a branch of the national organization of hotel clerks, S. J. Bush, chief clerk at the Acacia hotel in this city, was made a member of the executive committee. The meeting was held in Denver Tuesday night. Other officers elected by the greeters are: J. J. German, president, Charles Genuit, first vice president, C. T. Newton, second vice president, V. S. Warner, secretary, H. E. Lathrop, treasurer; J. A. Fuller, M. O. Jones, M. I. Madden, E. C. Bennett, C. W. McClure and J. M. Collins, executive committee.

## Buy Your Coffee Here

Because of its freshness, its purity, its strength. We have been many years reaching the goal of our ambition, A Coffee by every test—that's better than all others.

We say "better than all others" and are ready to prove it with the very first pound of our famous Dry-Coke Roast Coffee.

It's freshly roasted. It makes ten more cups to the pound. Phone us a test order.

# GOOD MATTRESSES GOOD HEALTH

Have much to do with

Our unrivaled line of Mattresses, ranging in prices from \$3.50 to \$20, include

**OSTERMOOR**

The famous OSTERMOOR at the manufacturer's advertised prices

The popular SEA-FV at the manufacturer's advertised prices

and the remarkable ST. EARN'S & FOSTER Superb Mattresses.

All of these superior grades we have ready to deliver in any required size, AT EXACTLY

## Development Work of Great Magnitude Being Done by Costilla Estates Development Co.

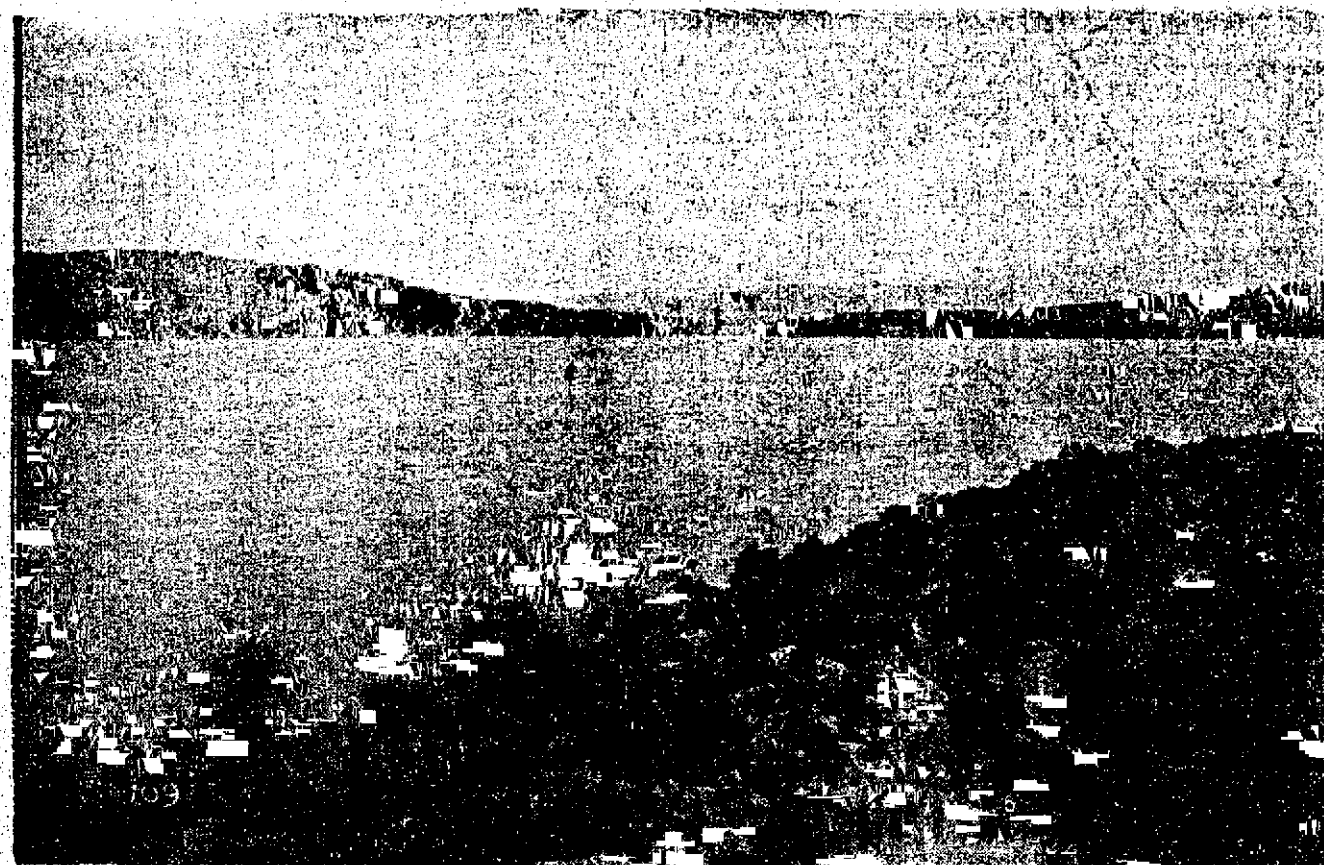

Some idea of the magnitude of the development work being done by the Costilla Estates Development company in the San Luis valley may be gathered from the annual report made yesterday by Franklin E. Brooks of this city, president of the company, extracts from which are given below.

It is pointed out that the operation of the company is by far the largest private irrigation project consisting of land and water in the United States,

and the Gatun lake, Panama, which is not a reservoir, but a portion of an artificial waterway. There is in eastern Colorado a series of four separate natural basins connected by canals, which goes under the name of the Great Plains reservoir, with a capacity of 183,000 acre feet. These lakes have never been filled and they are not, in any sense, reservoirs to be compared with any of the above. The above figures, furnished from the office of the state engineer of Colorado,

expended more than \$1,000,000 thus far in its development of the southern half of the Costilla estate in the San Luis valley. Three reservoirs, smaller than the Sanchez, have been completed. Plans are now under way for extending the San Luis Southern railway, which is now operating 33 miles of road, calling for the construction this fall of 20 miles more of track.

At yesterday's meeting, the following were elected directors of the company for the current year:

UPPER VIEW OF THE SANCHEZ DAM IN THE SAN LUIS VALLEY.

which forms a part of the Costilla Estates company's irrigating system. The dam is the twelfth largest of its kind in the world. The water it impounds would cover the state of Rhode Island to a depth of two inches.

and that it was started and developed by Colorado Springs capital.

"Since the last annual report," says President Brooks, "construction has advanced very rapidly. Today our chief work, the Sanchez project, is practically completed, showing the following figures as of October 1: Dam embankment, 486,000 yards complete; Sanchez retaining dyke, material placed, 238,312 yards, 82.7 per cent complete; Sanchez catchment canal, complete and in operation since May 10.

"The last report attempted to give the stockholders some idea of the vastness of this project; it still is not appreciated. It is one of the dozen great reservoirs of the world. When filled to its capacity it would cover the land in the state of Rhode Island nearly two inches deep. It is fifth in height of the earth dams of the world. Those surpassing it are the dam of the Mexican Light and Power company at Necaxa, Mex., with a height of 180 feet; the Terrace dam in the San Luis valley, Colo., with a contemplated maximum height of 160 feet; the San Leandro and Tabauld dams, Amador county, Cal., with heights, respectively, of 125 and 123 feet.

### Other Big Dams.

"Following the Sanchez, 120 feet, there comes the Druid lake of the Baltimore water works; the Bellefourche dam of the United States reclamation service, and the Great Gatun dam at Panama, with 115 feet each.

"In volume of water impounded, your reservoir is exceeded by only two earth dam reservoirs in the world, the Gatun and the Bellefourche. It is more than double in size any single irrigation reservoir in the state of Colorado, and nearly 20 per cent larger than the Cheeseman lake, the largest reservoir of any kind in the state. Larger in volume of water impounded of any class of reservoirs, except the Gatun, are only the following:

	Capacity, acre-feet
Roosevelt, U. S. reclamation service, Arizona	1,284,000
Pathfinder, U. S. reclamation service, Wyoming	1,025,330
Aswan, British government, Egypt	883,600
Ashken (under construction), N. Y. Water Com., N. Y.	600,000
Shoshone, U. S. reclamation service, Wyoming	458,000
Bellefourche, U. S. reclamation service, South Dakota	215,000
Wachusett, Boston Met. water works, Boston	193,300
New Croton, N. Y. Water Com., N. Y.	170,000
Buena Vista, private enterprise, California	170,000
Bhatpur, British government, Central India	126,500
Wheatland, private enterprise, Wyoming	126,000
Sanchez, private enterprise, Colorado	104,000

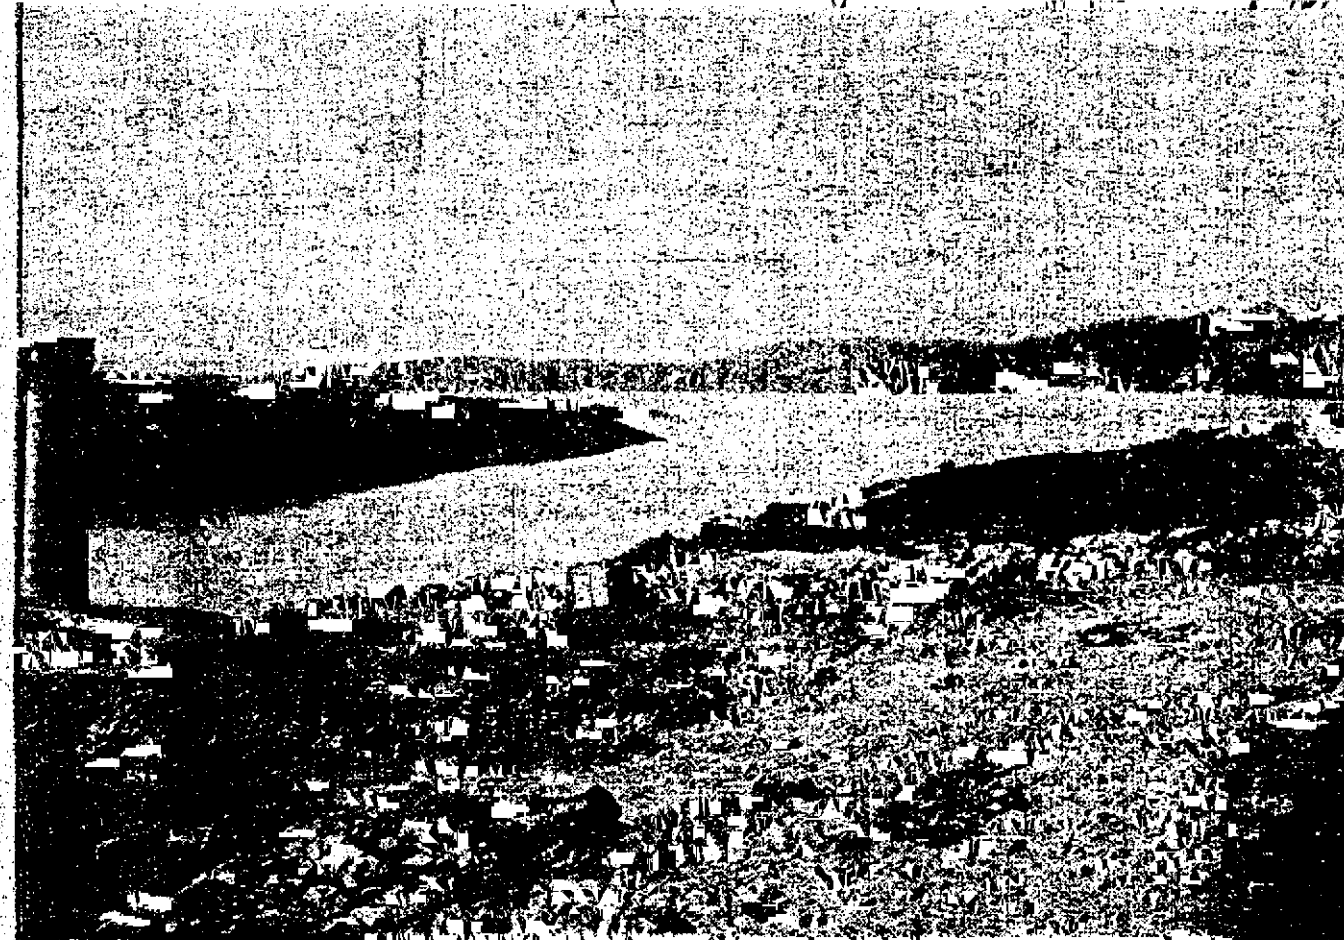

### Figures From State Engineer.

"The above list does not include the projected Engle reservoir, New Mexico.

give you something of an idea of the class in which you are operating.

"Of all these reservoirs mentioned, only four are private enterprises. But where the Sanchez is preeminent is in the acre cost. With a total impounding capacity of over 100,000-acre feet, you are expending less than \$6 an acre foot for storage. It is safe to say that no other reservoir mentioned is in the same class in this particular. For a storage of 50,000 acre feet, the Standley lake, the next largest irrigation reservoir to our own in Colorado, cost \$2,000,000. The Terrace reservoir, with a capacity of approximately 30,000 acre feet, cost \$375,000; the Bellefourche, of

Franklin E. Brooks, formerly United States congressman from Colorado; Gerald Hughes, director of the First National bank, Denver; Lafayette M. Hughes, Denver; James R. Dunbar, formerly justice of the supreme court of Massachusetts; Charles S. Lilley, formerly justice of the superior court of Massachusetts and a director of the Boston Safe Deposit and Trust company; Horace G. Lunt, formerly judge of the local district court; H. Alexander Smith of this city; Otto T. Malley, a Philadelphia capitalist; William V. Kellen, Philadelphia capitalist; Felix Rackemann of the law firm of Dunbar and Rackemann; Edward

GENERAL VIEW OF THE BIG SANCHEZ DAM IN THE SAN LUIS VALLEY.

Owned and operated by the Costilla Estates company.

the reclamation service, cost nearly \$20 an acre foot, and these are only examples.

"It is a magnificent piece of work, and it is really an unfortunate combination of modesty and lack of time that has kept us from impressing the fact of our greatness upon the unsatisfied public. It should be of some satisfaction to you, however, that your money has gone into one of the few great enterprises of its kind in the world."

Has Expended Over \$1,000,000.

The Costilla Estates company has

W. Hart, formerly manager of the Council Bluffs water works; Fred G. Moffat, vice president of the First National bank of Denver, and Henry Hornblower, president of the Boston Stock exchange and of the banking firm of Hornblower and Weeks of Boston, New York, Philadelphia and Chicago. His associate, J. W. Wicks, is United States congressman from Massachusetts, and a large stockholder in the Costilla Estates company.

Officers of the company are: Franklin E. Brooks, president; Edward W. Hart, first vice president and treasurer;

the latter company has sold 20,000 acres of land, and that an additional tract of 5,000 acres was cultivated this year. In the San Luis Power and Water company is vested the title to the irrigation system of the Costilla Estates company.

Birds. It seems rarely if ever get accustomed to the sound of electric bells so as not to be startled at the ringing of one. Knowing this, the headmaster of an Austrian school has patented an electric screech, in which a clock makes the connection at irregular intervals to electric bells scattered over his orchard.

Every Foot of Space Taken.

That was an exaggerated case, but it is quite typical. The "show me" spirit that a good many home people have assumed may begin to change at the end of the week, when the tents and buildings for the exposition begin to go up on Nevada avenue. Every foot of space, originally planned for the exposition has been taken, and arrangements are being made to enlarge the plan. Frames with canvas tops are to be erected.

It is impossible at this time to estimate what the crowd may be, which no doubt will be dependent somewhat on the weather. In so far as the daily attendance from nearby towns is concerned, The Antlers, Acacia, Alta Vista and Alamo hotels have orders for a large part of their rooms, and expect that they will be turning people away at an early date in congress week. Smaller and less advertised hotels usually fill up quickly on occasions of this kind, but are not requested to make reservations ahead. The town should start to fill up by the first of next week, when the exhibitors begin to arrive. All exhibits must be in place by Friday, October 13, as the judging will be done and the awards hung when the exposition opens Monday morning, October 16.

### COMPLIMENTARY DINNER GIVEN GEORGE B. TRIPP

A complimentary dinner was given George B. Tripp at the Elks club last night by members of the lodge.

Mr. Tripp, who has been one of the governing board of the Elks, leaves Saturday for his new home in Harrisburg, Pa., where he will have charge of the Harrisburg Light, Heat and Power company, a position similar to the one from which he has resigned with the Colorado Springs Light, Heat and Power company. The evening was marked by farewell speeches made to Mr. Tripp by his brother Elks and his reply to them. W. J. Pink entertained the dinner guests with music.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by all dealers.

**FREEDOM FROM COLDS & HEADACHES**

INDIGESTION & SOUR STOMACH

AND ALL THE ILLS THAT COME FROM AN INACTIVE CONDITION OF THE LIVER, STOMACH AND BOWELS,

may be obtained most pleasantly and most promptly by using Syrup of Figs and Elix. of Senna. It is not a new and untried remedy, but is used by millions of well-informed families throughout the world to cleanse and soothe and strengthen the system. It is a remedy which is needed.

When buying note the full name of the Company, California Fig Syrup Co., printed on every package of the medicine.

Bottle price 50¢ per bottle. For sale by all leading druggists.

**SYRUP OF FIGS and ELIXIR OF SENNA**

PREPARED BY CALIFORNIA FIG SYRUP CO.

The Cook always feels confident of

pure and wholesome food when using

**DR. PRICE'S CREAM Baking Powder**

A Pure Grape Cream of Tartar Baking Powder

No Alum No Lime Phosphate Made from Grapes

### HOPE TO FIND MURDER

CIFW AT MEDARYVILLE

In the hope that a clew may be found at Medaryville, Ind., Pinkertons employed in the Wayne-Burnham murder case are at present directing their investigations toward that place.

Nothing has been learned here concerning Wayne's life in the little Indiana town, and it is believed that detective work there may unearth some clew that will establish a motive for the murder of Wayne, his wife and 2-year-old child.

It was stated last night that there was nothing new in police circles regarding the crime of September 17. Newspaper accounts of the sextuple crime have been sent to Portland, Ore.; Rainier, Wash., and Monmouth, Ill., where similar murders have been committed within the last few weeks. Nine persons were killed in the murders in the western towns, and a family of three at Monmouth. In each instance the murderer left no clew and the authorities thus far have been unable to establish a motive for the crimes.

January, the month with the Latin name, had a grimmer name in Saxon England. Richard Verstegan in his "Restitution of Decayed Intelligence in Antiquities," a curious book published in 1573, writes: "The month which we now call January our Saxon ancestors called 'wolf month,' to wit, 'wolf month,' because people are wont always in that month to be in more danger to be devoured of wolves than in any season else of the year, for that those ravenous creatures could not find other beasts sufficient to feed upon."

## Women Who Suffer

from woman's ailments are invited to write to the names and addresses here given, for positive proof that Lydia E. Pinkham's Vegetable Compound does cure female ills.

# THE DAY'S NEWS IN SPORT CIRCLES

SOME OF THE PROMINENT MEMBERS OF THIS YEAR'S TIGER ELEVEN

## MACK WILL HAVE TEAM AS GOOD AS 1910 TO RUSH INTO BATTLE FOR WORLD TITLE

By IRVING VAUGHAN.  
CHICAGO, Oct. 4.—Will the mighty hitting that carried them to an American league championship overcome the ease running of the New York Giants and place the Athletics on that enviable pedestal of world's championship fame? This in itself is an all-absorbing topic in these days of the waning season, with the house of Mack already amping in the spotlight of their penultimate achievement and McGraw's Giants fast moving toward what now appears to be an inevitable victory.

Records tell of the terrific hitting carried on throughout the year by the Philadelphia squad, and by the same means is shown the wonderful ability of the Gothamites to run the bases with what looks to be careless abandon. No one, or even two or three, man's hitting has been responsible for the consistent strides of the Athletics. It has been a case of hit from the top of the batting order to the very bottom, and even the pitchers themselves have moved distinction in this respect.

Speaking of the pitchers gives room or the argument that Mack must give credit to his staff of twirlers for the weeping win. Lovers of the air-tight hitting performances are both right and wrong. From one end of the season to the other the Athletics have shown a variable attack consistent with the work of both the home and visiting pitchers. Time and again they have encountered puzzling flingers from whom they might secure a ne-run advantage and then nurse it long to the finish, with their own soundman contributing his share decisively.

At other times the Athletics have been forced to tussle in uphill engagements when their own flingers were being driven to the wall. Here it was a case of hit the other fellow, and the records of the year show how much they have accomplished in this respect. Few heavy-hitting games, where the scores run up to two figures, were lost by the world's champs, and the one explanation is their ability to hit the

ball at the right time and hit it hard. Mixed with this clouting was the natural amount of clever maneuvering on the bags. This was only second to their hitting, and while the Giants admittedly have a shade in this respect the Athletics can claim just enough to put up the most formidable fighting machine, both defensively and offensively, that has contended for the supreme diamond honors in many days.

To give credit and give it properly to the Philadelphia machine would be a thankless task. The easiest solution would be to hand the laurels to the team as a whole and to Connie Mack for him. First he was manager and captain, individually—the former for the constructing of the mighty machine and the latter for the part he has played in directing the season's actual campaign. Mack must be looked upon as a wizard in his ability to switch about star talent until he locates it at the logical position and it was this that proved such a big factor in building up the team to its present formidable strength.

Eddie Collins is an instance of this. Mack sighted the Tarrytown phenom while he wore the togs of Columbia university. At that time he specialized at anything but second base, his present berth. His speed and consistent hitting, when called upon in the pinch, forced the clever leader to make room for him. First he was shifted about the outfield, but Mack soon saw that Collins would never become a finished outer garden. Then he was tried at short, but again he failed to fill and finally Mack hit upon the second base job.

"Stuffy" McInnis is another out of whom Mack has coined a star and one who happened along just at the psychological moment. This was when Harry Davis, for years first sacker and field general, began to waver. Mack solved the problem in hurried fashion and to perfection. McInnis served much as did Collins. He was shunted about from place to place, but found wanting. Originally he had been a shortstop in the New England country, but in the finer points of the game he was found deficient.

With that inexplicable foresight Mack saw in this youngster a coming star and he was retained. In the neighborhood of 18 years, when he first donned the togs of an Athletic, McInnis was called upon to occupy the bench for a couple of seasons. All this time he was learning. He followed every play whether uncovered by home or visiting teams, and the bench warming had the desired effect.

It was at the start of the present season that Mack decided to try him, at first, the only place where a change could even be considered. There was nothing lacking in his play from the outset. On the bag he proved as valuable an acquisition as could be asked for, his trick plays kept the enemy on the alert at all times, and lastly his hitting has added wonderfully to an already well-balanced hitting organization.

The other two infield positions were amply provided for in Barry and Baker, the former at short and the latter at third. With the other two Mack boasts of a quartet that would be hard to equal and one which could not be built up by long practice and patient work.

The outfield with Lord, Oldring, Murphy and Strank is on the same par and with such worthy flingers as Bender, Coombs, Plank, Krause and Morgan.

## RICH FUTURITY WON BY PETER THOMPSON

LEXINGTON, Ky., Oct. 4.—Peter Thompson, owned by A. B. Cox, today won the \$14,000 Kentucky Futurity by taking the three heats. Main Leaf, which won two heats yesterday, was too lame to come back.

Peter Thompson set a new world's record for 3-year-old geldings in the fourth heat when he went the mile in 2:07.

The 2-year-old futurity, worth \$5,000, was won by Miss Catherine Wilkes Princess Todd, who lowered the season's record for 2-year-old trotters in the second and deciding heats to 2:12 1/2.

Uhlan, C. K. G. Billings' sensational trotter, failed to lower his record of 1:58 1/2, but made the mile in 1:58 1/2, two and a quarter seconds under the track record.

The Kentucky Futurity, for 3-year-olds, \$14,000, three in five, three heats Tuesday—Peter Thompson, b. g., by Peter the Great, won fourth, fifth and sixth heats. Main Leaf, blk. c., by Main Sheet-Ashland Wilkes, won first and second heats. Atlantic Express, b. c., by Bellini-Expressive, won third heat. Margaret Parrish, Box, Lettie Lee and Barlen started. Time, 2:08 1/2, 2:08 1/2, 2:07 1/2, 2:11 1/2.

The McDowell, for 2-year-old trotters, three in five, \$3,000—Sagana won in straight heats. Best time, 2:05. Grace second. Willy third.

The Kentucky Futurity, 2-year-olds, value \$5,000, two in three—Princess Todd, blk. f., by Kentucky Todd-Grace, won first and second heats. Best time, 2:12 1/2. Sagana won in straight heats. Best time, 2:05. Grace second. Willy third.

The 2:08 pace, purse \$1,000, three in five—Billy Bailey won fourth, fifth and sixth heats. Best time, 2:11 1/2. Princess Hal won second and third heats. Best time, 2:07. E. H. M. won first heat; time, 2:06.

The 2:11 class, purse \$1,000, three in five (unfinished)—Judge Ward won first and second heats; best time, 2:07 1/2. He at Law won third and fourth heats; best time, 2:07 1/2.

The 2:14 class trot, purse \$1,000, three in five (unfinished)—Olcott Axworthy won first and third heats; best time, 2:08 1/2. Robert K. won second heat; time, 2:12. Densmore third.

## WYOMING MAY CATCH TIGERS OFF BALANCE

With the Wyoming game but three days off, Coach Rothsch is having a hard task getting the Tiger eleven in shape for the opening championship game of the season.

Yesterday, judging from the appearance of the Colorado college squad, it looked as though the Cowboys might catch the Tiger team off its feet, for half a dozen men are still nursing sprains and bruises received in last Saturday's workout with the High school. Rothsch said last night, however, that he hoped to have the team in good shape physically for the opening game.

Sinton, Heald, Deetz and Somers limped through the practice game last evening, with the two latter probably in the worst condition. Each has a bad ankle.

Not all of the sprains were received in scrimmage work, and for a precaution against further injuries, of the same kind, the coach had the field scraped and rolled yesterday, filling up small holes. Some of the sprains have been traced directly to the uneven surface of the gridiron.

Cooler weather yesterday had its effect on the players and there was more snap to the practice. Sharp weather and sharp comment by the coach had a noticeable effect on the squad and the team showed some of the enthusiasm it displayed in the daily workouts last year.

Dispatches from the Wyoming camp are inclined to be optimistic this fall and the Cowboys, now in mid-season form, expect to give the Tigers a hard game next Saturday. The university eleven is heavier this year and, according to reports, is playing good football.

Putnam will probably start the game for the Tigers at quarter, with Vandemoep, Heald and Black back of him. In the event that both Thompson and Deetz are in shape, the latter will no doubt be given a trial at a halfback position.

## JENNINGS, AS HE DID LAST YEAR, DOUBTS GAMENESS OF ATHLETICS; PICKS GIANTS

### NEW YORK CINCHES PENNANT FOR 1911

To all intents and purposes the National league championship season ended yesterday, with New York the winner.

All that remains now is the playing out of the schedule, which calls for games up to October 12.

With one or two possible exceptions, the positions of the clubs will be the same at the close of the season as now—Chicago, second; Pittsburgh, third; Philadelphia, fourth; St. Louis, fifth, and Cincinnati, Brooklyn and Boston bringing up the rear as named.

New York won its ninety-fifth game yesterday, and could drop all nine remaining games, while Chicago was winning all its remaining five and still take the pennant, thus:

New York	95	53	435
Chicago	94	60	410

With ultimate success assured, it seems probable Manager McGraw will put in many substitutes in the remaining games, giving his stars some needed rest before the world's series.

New York's previous championships were won in 1888 and 1899, under James Mutrie, and in 1904 and 1905, under John McGraw, the present manager of the team.

The standing:

New York	95	53	435
Chicago	94	60	397
Pittsburgh	84	67	356
Philadelphia	79	69	354

DETROIT, Oct. 4.—In the first place, the idea that the New York team will be played out after their return from the west, and that their pitching staff will be completely exhausted for the coming world's series is an entirely erroneous one," says Hugh Jennings, manager of the Detroit team.

"Everyone will admit that the main reliance of the New York team will be placed solely in Mathewson and Marquard. Both these men are grand pitchers. They alone are responsible for the Giants being in the lead today. If Pittsburgh had had these two men and Warner had not been hurt—but what's the use?—the Giants are up there and they look like winners.

"If Mathewson and Marquard make good, as I believe they will, I shall be extremely sorry for those who risk their pile upon the Athletics. With these two twirlers at their best, the Mackmen are going to have the battle of the year upon their hands. I hear a lot of talk about this Philadelphia pitching staff and about what Coombs, Plank and Bender are going to do to McGraw's team. Just wait and see what they will do. The one pitcher of these three that I expect to see go well against the Giants is Eddie Plank—and it's a question if Connie Mack will use him. He didn't use him last fall against Chicago, and he came mighty near to being sorry for it. Bender beat the Giants in 1905 and he may do it again this fall. But I don't expect to see Jack Coombs stand these Giants on their heads.

"Bender won his first game against the Cubs last year and he was beaten in the second. Coombs won three games, but he was covered with horse-shoes. He gave nine bases on balls in one game, and had been pitching against the Tigers or the Red Sox he would have been driven to the stable before the game was half over. Coombs simply was pitching against a one-time good team that had lost their nerve. That's the only reason in the world why Coombs got by last fall.

"If I were going to bet on any money on this series, I'd be inclined to take New York with Mathewson and Marquard pitching. That is, if these pitchers are thoroughly rested up. I consider this pair better than any pair Mack may send in. But even at that I look to see lots of batting and plenty of runs made in this series. The Athletics are a good heavy batting team, and almost man for man they can out-hit the Giants. The only real good stickers that the Giants have are Larry Doyle, Meyers, Merkle and occasionally Herzog. I never considered Murray a hitter. Fletcher I don't know much about. Devore is only fair, while Snodgrass is not the batsman that his record last season would seem to show.

"Contrast these men with McInnis, Collins, Baker, Oldring, Dannie Murphy, not to mention Barry, Thomas or Briscoe Lord, and you will see that the Athletics have all the best of it in the hitting line. But I don't believe that these men will beat the fences down with Mathewson and Marquard in the box.

"The Athletics may out-hit the Giants, but the latter will make their hits count for more runs than the Mackmen will. On the bases they will make Tra Thomas work like a steam engine to stop them. Doyle, Herzog, Devore.

Fletcher and Murray are all corking good base runners, while the only real base runner that the Athletics have is Eddie Collins. He is the only man that will give Chief Meyers any trouble.

"To the two catchers, I should prefer Meyers. He is a harder hitter and a good thrower. In fact, a much better thrower than Thomas. I believe that Thomas is the brainier man of the two, but Meyers will help with a good left hander like Marquard to hold the runners close to first, while Mathewson will make up for any deficiency in the Indians' thinking apparatus.

"Another big factor that the Athletics must reckon with is the fighting ability of the New York team. I don't wish to make any comparisons, but I can't help feeling as I do in certain things. I don't want to accuse the Athletics of any lack of gameness, but I think that the Giants will show a whole lot more fight than Connie Mack's bunch will. There isn't much use in recalling that disastrous post-season series of 1905, when the Athletics were eaten up by the McGraw team. It has always been conceded that the Giants outgamed the Philadelphians. They may this year, too.

"Of course, there is not a whole lot of that old team playing now. But Murphy, Bender, Plank and Briscoe Lord were on the Philadelphia team then, and wasn't it Briscoe Lord who came up twice for a sacrifice, the only thing needed, and yet failed to deliver? There may be one or two others on the team who will be a little bit feased, so to speak, when they hear the rooting on the Polo grounds.

"As a fielding team, I think that the Athletics have it on the Giants. You must consider pitching, hitting and base running, with field and plenty of essentials. The Athletics can field and hit; the Giants can run bases, have a couple of fine pitchers, and they can fight till the cows come home. Just wait and see."

## Prizes Won by Springs Dogs

Trophies won by Colorado Springs dogs at the recent bench show in Denver, will be on exhibition beginning tomorrow at the Opera House pharmacy. Springs dogs won more prizes than did the blooded stock of Denver, and local breeders are highly pleased at the showing. First prize for the best terrier exhibited was won by "Pikes Peak King," from the Pikes Peak kennels as well as first in the novice class. "Lucky Alachmych" took second prize in her class and "High Ball" won the second prize. Other prize winners were:

"Pikes Peak Kennels"—P. P. Shannon, first open, winner, cup for best small Irish terrier; "P. P. J. de," first novice and reserve winner. "P. P. J. de," first limit, cup for best team. "Muchiacha," first limit winners and medal for best dog in Chihuahua's class.

Cocker Spaniels—Mrs. J. T. Anderson's "Sport," first novice; Mrs. T. E. Martin's "Colorado Coppers," second novice and third limit. A. C. Wilson's "Sir Russell Rowdy," second limit and second open.

Scottish Terriers—Mrs. T. E. Martin's "nry won first novice and first limit; P. P. Dinah," first novice and reserve winner.

Scott Collies—A. E. Hetson's "Cheyenne Mountain Scout," first novice and reserve to winners.

Pointers—C. E. Aiken's "Broker," first open and winners, medal for best pointer in show, special trophy for best show. "Rosemma," first open and winners, special trophy for best female. "Nifty," second open and reserve. "Silver Heels," second open and reserve.

Dick Terriers—El Paso kennels' "Buck Lightheart," special silver cup for best Boston Terrier owned in Colorado. Medal for best limit and open. See R. medal for best female in pen.

## WESTERN LEAGUE

Clubs. W. L. Pct.

Denver	109	53	.473
St. Joseph	91	60	.359
Pueblo	90	72	.355
Sioux City	83	75	.321
Omaha	82	80	.308
Lincoln	82	80	.308
Topeka	59	101	.369
Des Moines	48	110	.303

Defeat for Pueblo.

FUEBLO, Oct. 4.—St. Joseph won from Pueblo by hitting Pills hard in the seventh and eighth innings.

R.H.E.  
St. Joseph.....0 0 1 0 0 1 3 0-5 14 2  
Pueblo.....0 0 0 0 2 1 0 0-4 10 1  
Chellette and Crittenden; Ellis, Faber and Clemons.

Leaders Make 25 Runs.

DENVER, Oct. 4.—Denver hit the ball at will today and defeated Sioux City 25 to 1.

Score: R.H.E.  
Denver.....1 2 0 0 2 1 1 0-25 24 1  
Sioux City.....0 0 0 0 0 1 0 0-1 7 2  
Steiger and Waller; Healey and Franches.

Victory for Topeka.

TOPEKA, Oct. 4.—Crisp's home run in the fourth won for Topeka.

Score: R.H.E.  
Topeka.....0 2 0 1 0 0 0 0-3 4 2  
Des Moines.....2 0 0 0 0 0 0 0-2 8 3  
Gaber, Buchanan and Crisp; Northrup and Utowski.

Omaha and Lincoln Split.

OMAHA, Oct. 4.—Omaha and Lincoln divided a doubleheader, Lincoln winning the first contest. The second game was called at the end of the sixth on account of darkness.

First game—R.H.E.  
Omaha.....1 0 1 0 0 0 0 0-2 31 3  
Lincoln.....0 7 2 0 0 0 2 2-16 12 1  
Robinson, Lotz and Arbogast; Shuman, Fox and Stratton.

Second game—R.H.E.  
Lincoln.....0 0 0 0 0 1 0-2 0 0  
Omaha.....0 0 0 0 0 1 0-2 6 0  
Fentress and Lynch; Smith and Stratton.

HOGAN BEATS DORMAN.

NEW YORK, Oct. 4.—"One Round" Hogan of California outfought and outpointed Jack Dorman of New York in a 10-round bout here tonight. The men fought at catch weights and were from three to five pounds over the lightweight limit. Hogan had the better of it all the way.

## FLIP COIN FOR THE OPENING BALL GAME

NEW YORK, Oct. 4.—The toss of a coin here tomorrow will determine whether the opening games of the world's baseball championship series will be played on the Polo grounds here or on the grounds of the world's champions of 1910 at Philadelphia.

The choice will lie between President Thomas J. Lynch of the National league and Ban Johnson, the American league president.

President Lynch said nothing more definite could be announced as to dates than that the games would not begin for at least two days after the close of the National league season on October 12.

A British automobile concern has built a truck and trailer especially for the transportation of aeroplanes.

Boston	40	106	.274

Giants Win Pennant.

BROOKLYN, Oct. 4.—New York clinched the pennant by defeating Brooklyn today. Should Chicago have been hurried October 12, but the ceremony was advanced to last Sunday. Rucker pitched as well as Mathewson, but two errors following a hit by Doyle in the fourth inning were responsible for one tally. Rucker retired in the eighth to let Doyle bat for him, and New York scored its second run off Knetzer in the ninth on Devore's single, a steal, a wild pitch and an infield tap by Snodgrass.

Score: R.H.E.  
New York.....0 0 1 0 0 0 1 2-8 0  
Brooklyn.....0 0 0 0 0 0 0 0-2 3 0  
Mathewson and Myers; Rucker, Knetzer and Irwin.

Two-base hits—Murray, Wheat, Triple, Stark, Daubert and Toolley. Bases on balls—Off Knetzer, 1. Struck out—By Mathewson, 5; Rucker, 5.

Easy Victory for Cubs.

ST. LOUIS, Oct. 4.—Chicago easily defeated St. Louis here today. The local team used recruit pitchers, who were wild. Six errors by St. Louis players were also factors in giving the game to Chicago.

Score: R.H.E.  
Chicago.....0 0 2 1 0 3 1 0-7 15 3  
St. Louis.....0 0 0 0 0 1 0 0-1 8 6  
Reubank and Graham; Dale, G. Laudermilk, Reis and Wingo.

Two-base hits—Tinker, Evans, Bases on balls—Off Reubank, 2; Dale, 3; Laudermilk, 3; Reis, 2. Struck out—By Reubank, 6; Dale, 3; Laudermilk, 3; Reis, 1.

Two Games to Boston.

PHILADELPHIA, Oct. 4.—Boston won both games of a doubleheader from Philadelphia today. The second was stopped because of darkness at the end of the seventh inning. The visitors pounded the ball hard, and in the first inning of the game, seven successive batters hit safely, the collection including five singles and two doubles. Donlin and Miller each made five hits.

First game—R.H.E.  
Boston.....2 0 0 0 2 0 3 0-7 15 3  
Philadelphia.....0 0 1 0 0 0 2 0-3 5 2  
Brown and Kling; Puckett, Moore and Kilflifer.

Two-base hits—Sweeney, 2. Three-base hit—Kling. Struck out—By Moore, 3; Puckett, 1. Bases on balls—Off Brown, 3; Moore, 2; Puckett, 2.

Second game—R.H.E.  
Boston.....1 0 6 0 0 0 0-7 15 1  
Philadelphia.....0 1 0 0 0 0 0-4 0 0  
Tyler and Rariden; Stark, Hall and Walsh.

Two-base hits—Donlin, Rariden, McDonald, Home run—Thus, Struck out—By Tyler, 4; Stark, 3; Hall, 1. Bases on balls—Off Tyler, 2; Stark, 1; Hall, 3.

## AMERICAN LEAGUE

Washington	65	86	.430
St. Louis	42	106	.284

Naps and Tigers Split.

CLEVELAND, Oct. 4.—Cleveland and Detroit broke even today, Detroit winning the first game. Cleveland out-batted and outfielded Detroit in the first game, but the Detroiters had the luck. Krapp was taken out in the second after he had passed the first three men and the fourth had hit for two bases. Whitt was hit hard.

First game—R.H.E.  
Cleveland.....0 0 0 0 0 0 0 0-0 10 0  
Detroit.....0 0 0 0 0 0 0 0-0 10 0  
Mitchell, Swindell and O'Neil; Mullin and Stange.

Two-base hits—Ball, Crawford. Bases on balls—Off Mitchell, 2; Mullin, 3. Struck out—By Mitchell, 2; Swindell, 1; Mullin, 1.

Second game—R.H.E.  
Cleveland.....2 0 1 0 1 2 3 1 1  
Detroit.....3 0 0 2 0 1 0 6-6 5  
Krapp, James, Blanding and Fisher; Whitt and Wilson.

Washington Beats Champs.

WASHINGTON, Oct. 4.—Washington's baseball season closed today with a victory, the locals defeating Philadelphia. Groom held the champions to four hits, while Krause was hit hard. The game was played in an hour and 10 minutes, the season's record.

Score: R.H.E.

St. Louis.....0 1 0 1 0 0 0 0-2 5 0  
Scott, Benz and Block; Hamilton and Kiehl.

## FOOTBALL RESULTS

PRINCETON, N. J., Oct. 4.—Ruggers could not cope with the speed of Princeton's backs this afternoon and lost the first football game played between these two institutions for 14 years, by a score of 37 to 0.

PHILADELPHIA, Oct. 4.—The University of Pennsylvania football team defeated Franklin and Marshall today on Franklin field, 14 to 0.

PROVIDENCE, R. I., Oct. 4.—Rhode Island State college, aided by a wet and muddy field, held Brown to a score of 12 to 0 today.

HANOVER, N. H., Oct. 4.—The Dartmouth football team showed much improvement today over the work in the first two games of the season and defeated Bowdoin 23 to 9.

PLAY FOR PRESIDENT'S CUP BEGINS SATURDAY

The qualifying round for the president's cup, emblematic of the club championship, will be played at the Colorado Springs Golf club Saturday next, eight to qualify. The following rounds of match play will be played the following three Saturdays.

The cup is presented by W. R. Jewett and was won last year by H. R. Davis. St. Louis trophy remains in the possession of the club, the winner each year having his name engraved upon it.

## CRIPPLE CREEK MINES

Special to The Gazette. Oct. 4.—The Cripple Creek, owned by the Dante Gold Mining company, and operated under lease by Melville B. Rapp and associates, is the scene of one of the year's new discoveries.

One of the veins of from 12 to 14 ounces gold—\$240 to \$280 to the ton—has been exposed by prospect work on a cross vein at the 400-foot level of the shaft. The high values are carried in a 10-inch streak next the hanging wall, with better than two feet of vein matter good for four ounces gold, or \$80, to the ton.

The cross vein was developed through a determination of the location to follow a knifeblade seam of sylvanite. For many feet of work, no change resulted, when a round of shots exposed a foot of ore; today the vein was broken fully three feet wide. It may be possible that a parallel vein will be encountered that has enriched the cross vein, otherwise the ore shoot is a strange occurrence.

## Rose Maule

The Rose Maule, the first shipping mine on Raven hill, is back on the shipping list. The property is under lease, and at the 250-foot level of the Peggy shaft a long lateral has opened up ore of shipping grade. A car was loaded out for consignment to one of the Colorado City mills, and at a conservative estimate the settlement will return the operators \$20 to the ton.

Little Giant M. and M. Company.—Electric power has been turned into the line of the Little Giant mill in Pony gulch, and a press of the button will start the mill machinery running. Ore is moving to the bedding floors and the crusher will commence grinding tomorrow. The entire plant is electrically driven, a power line having been extended to the plant from the main line on Beacon hill.

Alliance G. M. Company.—A bond of \$25,000 and lease covering a three-year term has been granted by Ed Mitterer and Goldfield associates controlling the Alliance Gold Mining company's patented property on Big Bull hill, to local mining men representing Ohio capital. A contract has been let for the extension of the Alliance tunnel an additional 100 feet. The Alliance properties adjoin the Masterpiece group, and recent development in the Masterpiece tunnel has created demand for leases in this undeveloped section.

## NEW YORK MARKET

NEW YORK, Oct. 4.—Further irregularity prevailed today in the stock market, which failed to develop a definite trend. Within the first few minutes the market fell off materially, and during the morning the range fell below yesterday's final quotations. United States Steel sold off nearly 2 points and some standard railroad issues almost as much. In the afternoon the market slowly recovered, only to fall back toward the close.

The pressure against St. Paul was continued, and this stock fell below 100 for the first time since 1908. The recent acute weakness of this issue, which has given rise to conjectures as to the stability of the dividend rate, was partially explained by the appearance of the August report of the road. It showed a decrease of more than \$500,000 in gross receipts and \$450,000 in the net. The Puget Sound reports a small shrinkage in operating income.

A few issues developed pronounced strength. Western Union made the most conspicuous gain, and it was reported that the stock soon would be placed on a 4 per cent dividend. Count Atchison, Northern Pacific and New York Central were firm.

Further reductions of prices of various steel products emphasized the unsettled conditions in that railway. Prices in some products, however, had a slight advance of the last decade. Stocks of pig iron production in September, which were received today, made a favorable showing, the rate of daily production having increased from 62,150 tons in August to 65,900 last month.

Suspension of cattle freight rates in the west, the bitterness of the struggle of the strike on the Harriman lines, were features to the market's unsatisfactory.

# Its Cold Cream Time

The first cold winds and frost bite and scratch your skin—if you give it a little extra care at this time you will have much less trouble during the winter.

A little of our "Colorado Cream" (liquid) rubbed well into the skin after washing will counteract the ill effects of winter's first frost. It is clean, clear, antiseptic, healing and pleasant to use.

## Now We Have It

The one dentifrice without a fault, the one that gives perfect satisfaction, that leaves nothing to be desired. It leaves a pleasant sensation in the mouth that we have long wanted to find and have just now succeeded. A bottle of Nival's Tooth Powder is bottle-ful of satisfaction. You can't go wrong by using it.
